INTRODUCTION

About This Catalog

Service Since 1858

Since 1858 the American Printing House for the Blind (APH) has been creating unique products for people who are visually impaired, blind, or deafblind. APH products are designed for infants, preschoolers, students, and adults, both in education and in daily living. This catalog is a complete listing of the materials, tools, and supplies offered for sale by APH.

Locating Products

The index, located in the back of the catalog, is alphabetized by product name. Most items are listed under three variations of the product name.

Persons with Multiple Disabilities, Including Deafblindness

Many products in this catalog are appropriate for children and adults with multiple disabilities, including deafblindness.

Prices and Types of Funds Accepted

All items in this catalog can be purchased with regular funds, such as checks, credit cards, or purchase orders. Most items can also be purchased with Federal Quota funds. Prices in this catalog are effective as of April 1, 2006. Prices are subject to change without notice.

Trademarks

All trademarks appearing in this catalog are of their respective companies.

Depictions of Products in Photographs

Some products you receive may vary slightly from those depicted in the photographs. These differences will not affect the functioning of the products.

About APH Products for Persons with Multiple Disabilities, Including Deafblindness

Children and adults with multiple disabilities, including deafblindness, are as diverse and varied in their abilities, strengths, and interests as is the general population. Whereas some APH products have been developed with individuals with multiple disabilities in mind, many others are also appropriate for use by persons with multiple disabilities, including deafblindness. When choosing products for any child or adult it is important to keep in mind the age, abilities, and interests of that individual.

Below are examples of APH products that you may wish to consider for children and adults who have multiple disabilities, including deafblindness.

Child-guided Strategies for Assessing Children Who Are Deafblind or Have Multiple Disabilities

This unique CD-ROM demonstrates Dr. Jan van Dijk's strategies and techniques for assessing and teaching children with multiple disabilities through the use of video clips, questions pertaining to the video clips, discussion, and relevant literature.

Reach For the Stars, Planning for the Future: A Transition Process for Families of Young Children

A guidebook on transitioning young children into preschool or kindergarten settings. *Reach for the Stars* was originally designed for transitioning children with deafblindness and other multiple disabilities.

CVI Perspectives

CVI Perspectives is a three part video intended for educators, families, and health care professionals. It provides information on the causes of Cortical Visual Impairment, as well as methods for identifying and understanding the unique educational needs of students with CVI. The third section presents thought-provoking accounts of families who have children with CVI.

Setting the Stage for Tactile Understanding

A tool for encouraging and informally assessing the development of early tactile literacy in young children. The tangible items and activities assist students with multiple disabilities, including deafblindness, transition from everyday real objects (e.g., cup, ball, block) to symbolic tactile representation.

Living with CHARGE Syndrome

This CD-ROM presents the medical aspects of CHARGE Syndrome, and teaches the viewer to observe and analyze the behavior of five children with CHARGE through the use of video clips and a question/answer section.

ISAVE: Individualized Systematic Assessment of Visual Efficiency

A functional vision assessment tool for use with infants, children, and young adults with significant cognitive, neurological, physical, and sensory impairments who cannot respond reliably to standard measures.

We encourage you to explore this catalog to locate other items you consider to be appropriate to meet the needs of the children and adults with whom you work.

INTRODUCTION

About the Core Curriculum and the Expanded Core Curriculum

by Dr. Philip Hatlen

Core Curriculum

Educators define core curriculum as the knowledge and skills a student should learn by high school graduation. This foundation, for almost all learning, is generally related to academic subjects.

Expanded Core Curriculum

Most professionals firmly believe that visually impaired students need an expanded core curriculum that requires additional areas of learning. Experiences and concepts casually and incidentally learned by sighted students must be systematically and sequentially taught to the visually impaired student.

Dr. Philip Hatlen is the Superintendent, Texas School for the Blind and Visually Impaired, Austin, and serves as an Ex Officio Trustee of the American Printing House for the Blind.

Note: The introductory copy at the beginning of each of the Expanded Core Curriculum sections in this catalog was authored by Dr. Philip Hatlen.

Custom Production of Accessible Tests

APH will work with you to develop test items or to convert your state or other major tests into accessible formats • BRAILLE • LARGE PRINT • AUDIO. For additional information, contact APH's Accessible Tests Department at 1-800-223-1839. For a price list, custom contract estimate, or information on the status of an order, ask for the Contract Administration Department.

Individualized Systematic Assessment of Visual Efficiency

A functional vision assessment tool for use with infants, children, and young adults with significant cognitive, neurological, physical, and sensory impairments who cannot respond reliably to standard measures. Helps the user determine instructional entry level and programming strategies for facilitating efficient application of remaining visual functioning.

Components

- 16 chapters of text and protocols in separate booklets. Booklets bound in two 3-ring binders.
- CD-ROM: View materials through your web browser and increase the print to any size. Print out copies of protocols, graphs, and charts as needed to perform assessments. PC and Mac® compatible. *Internet Explorer®* recommended. Note: The CD-ROM is not sold separately.
- For clear printing at any size, ISAVE protocols are online at www.aph.org.
- Cassette tape edition of the text
- Visual discrimination cards for evaluating visual acuity and discrimination
- Card storage pages that fit in the binders
- A clear vinyl grid with hook/loop fabric for evaluating visual fields
- Hook/loop board for easy display of the cards during evaluations
- Hook/loop strips for attaching the cards to the board
- A "lollipop" style occluder for blocking the vision of one eye while testing the other
- Clear rulers to measure focusing distance
- Tote bag for carrying all components

Brigance® Diagnostic Comprehensive Inventory of Basic Skills (Green), Revised, 1999: Student Braille Edition

A representative portion of the Brigance Basic Skills (Green), Revised 1999

A criterion-referenced inventory that assesses, on an individual basis, a student's strengths or weaknesses in specific skills areas, the Brigance® has been especially useful in support of IEP development and program planning.

The revised 1999 edition spans grades pre-kindergarten through nine. Innovations include options for group administration, updated grade placement tests, updated skill sequences, and alternative assessment options for pretests and posttests. The student braille edition is designed to be used only in conjunction with the print test. Information on ordering the print inventory can be obtained from the publisher, Curriculum Associates®, Inc. (see next page).

An adaptation of the print inventory, the student braille edition includes tactile representations of diagrams where appropriate. The 23 subtests have been grouped into 14 braille modules and made available separately or as a set.

Features of the Student Braille Edition:

- Color-coded modules match the print test
- Large 3-ring binder is available for organizing the modules
- Student modules available separately or as a complete inventory
- Braille subtests lie flat on the work surface
- Large print and braille Teacher's Notes, with ideas for alternative assessments, for each accompanying module
- Large print/braille ruler is supplied for math subtests

Brigance® Diagnostic Inventory of Early Development (Yellow): APH Tactile Supplement, Revised 1991

A criterion-referenced assessment designed to identify the level of mastery that a young child has achieved on selected skills. This information is important for planning a child's Individualized Family Service Plan (IFSP) or Individualized Educational Program (IEP). This inventory of early development was designed for children birth through kindergarten.

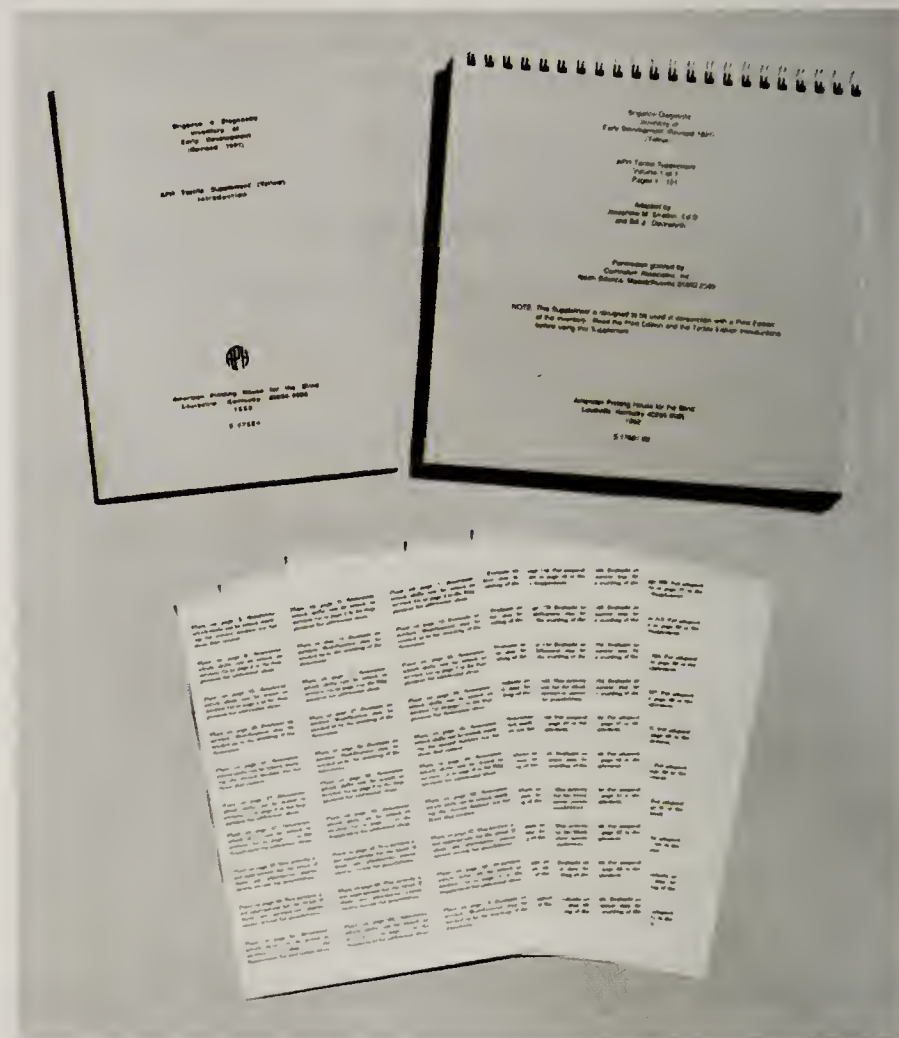

The *Brigance Inventory* is a self-directed inventory. The *APH Tactile Supplement* is designed to be used only in conjunction with the print edition of the Inventory (available from the publisher, see below). The *Supplement* provides alternative procedures and tactile materials for items which involve visual stimuli, with additional directions and suggestions where appropriate.

The *APH Supplement* consists of:

- Braille/tactile materials supplement
- Labels for marking the print edition of the test, indicating the pages for which alternative procedures are provided in the *Supplement*.
- Five student *Developmental Record Books* that are used to note assessments completed and the child's progress.

Skills categories tested with this inventory:

- Preambulatory Motor Skills and Behaviors
- Gross-Motor Skills and Behaviors
- Fine-Motor Skills and Behaviors
- Self-Help Skills
- Speech and Language Skills
- General Knowledge and Comprehension
- Social and Emotional Development
- Reading Readiness
- Basic Reading Skills
- Manuscript Writing
- Basic Math

KeyMath® 1988: A Diagnostic Inventory of Essential Mathematics: Braille Edition, Form A

An individually administered content-referenced test that provides a comprehensive assessment of a student's understanding and application of important mathematics concepts and skills. For students in kindergarten through 9th grade.

Results can be used to guide general instructional planning or remedial instruction. They can also be used as part of a comprehensive psychoeducational assessment; in program evaluations; or to

assess the scope, currency, and efficacy of a mathematics curriculum.

Includes Embossed Illustrations

The *KeyMath Braille Edition* contains braille and/or embossed illustrations to accompany the regular print edition, which is administered orally. A *KeyMath Manual* is needed for reference, and is included in the complete kit or can be purchased from the publisher, American Guidance Service® (see address below).

Test Records Supplied

Individual Test Records (five copies) are supplied with the *KeyMath Complete Kit*. An *Individual Test Record* should be used for a trial administration of the test and for each student who is actually administered the test for diagnostic purposes. Additional *Individual Test Records* are available from American Guidance Service.

KeyMath Revised, 1988: A Diagnostic Inventory of Essential Mathematics: Braille Edition, Form A:

Stanford Achievement Test: 9th Edition, Form S, 1996: Braille and Large Type Editions

APH, with permission of the Psychological Corporation/Harcourt Educational Measurement, has published braille and large type editions of this test, designed to measure performance in the areas of reading, spelling, study skills, language, mathematics, science, social science, and listening skills. Adapted versions span grades 2-12.

The braille and large type editions of ten levels of the *Stanford* are available directly from APH. (Note: The first three levels, SESAT 1 and 2 and Primary 1 of the *9th Edition* were not adapted for braille and large type due to their highly pictorial content.)

Instructions for administering the braille and large type editions are included with each level of the test.

Norms Book Available

The *National Norms Books, Fall and Spring Editions, 1996* are available from Harcourt Assessment, 19500 Bulverde Road, San Antonio, Texas 78259, 800-211-8378, Fax 800-232-1223. These books contain information on the educational content/rationale of the *Stanford*, as well as guidelines for interpretation of scores and individual performance.

Child-guided Strategies for Assessing Children who are Deafblind or have Multiple Disabilities

by Dr. Catherine Nelson and Dr. Jan van Dijk

This unique CD-ROM is user-friendly and highly interactive as it demonstrates Dr. van Dijk's strategies and techniques for assessing and teaching children with multiple disabilities through the use of video clips, questions pertaining to the video clips, discussion, and relevant literature. Comprehensive assessments of two children are included. Through an interactive question and answer format, the viewer can design an Individualized Education Plan (IEP) for the two children based upon the assessments.

Also included in the CD-ROM is an index of many terms pertaining to deafblindness and multiple disabilities. Each term is defined, explained in depth, and illustrated by video clips. In addition to a comprehensive printed article detailing the assessment process, 12 full text articles by Dr. Jan van Dijk and colleagues are also included in the production.

Living with CHARGE: How to Deal with Challenging Behaviors and Enhance Communication: A Follow-up Study of Individuals with CHARGE Syndrome

By Dr. Jan van Dijk and Dr. Cathy Nelson

The frequency of behavior problems in children with sensory impairment is greater than in other groups of children. Children with CHARGE Syndrome often have a multitude of physical, sensory, endocrinological, and developmental problems. Therefore, it is likely that a range of behavior problems may develop.

This CD-ROM presents a video on the medical aspects of CHARGE Syndrome, and teaches the viewer to observe and analyze the behavior of five children with CHARGE through the use of video clips and a question/answer section.

Numerous overviews of articles by Dr. van Dijk and others are included.

Reach For the Stars, Planning for the Future: A Transition Process for Families of Young Children

APH presents *Reach for the Stars*, a first-of-its-kind guidebook about transitioning young children into preschool or kindergarten settings. It is designed to help the families of young children with disabilities imagine positive and productive futures. It aids families in working with school personnel to create educational plans that will lead to inclusive educational programs.

- Family members can work with teachers, community members, and their child's peers to complete the maps and supporting materials prior to attending a transition meeting for their child.
- Service providers can use the material to understand a family's desires and expectations regarding their child's future.

Reach for the Stars:

Moving Ahead Series: Goin' on a Bear Hunt

Storybooks designed to be the next step for students who have had experience with simple tactile representations (such as those in APH's OWTL series). Moving Ahead storybooks introduce symbolic representation, more complex illustrations, and an increased emphasis on text by combining tactile pictures, print/braille text, and a fun story.

Goin' on a Bear Hunt is the first title in this series. In the process of hunting for the bear, the reader follows a tactile line through the story, and at the end of the book is a fold-out tactile "map" to use in retelling the story. Braille words are provided on customer-applied labels, allowing the reader to choose contracted or uncontracted braille.

Rolling Into Place™

Although *Rolling Into Place* is an interactive storybook intended primarily for children with visual impairments, any young child can enjoy its unique, fun design. As the Velcro® ball is rolled to its final "surprise" destination, important hand skills and basic directional concepts are learned and reinforced. The book's simultaneous visual, tactile, and auditory feedback help the child attend to the

path traveled by the ball. Also included are an assortment of interactive Velcro face pieces and an accompanying Author's Letter detailing suggested activities. Not intended for children ages 3 and under without adult supervision.

1-08450-00.....\$68.00

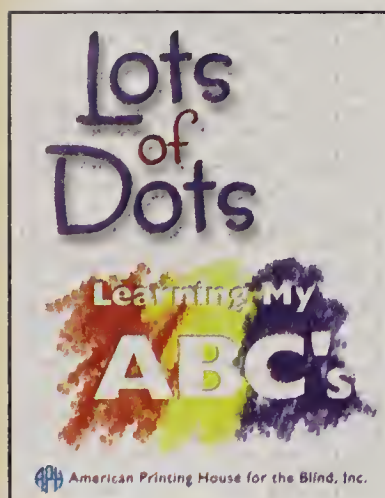

Rolling Right Along Construction Kit™

Rolling Right Along Construction Kit™ allows teachers and parents to construct books similar to APH's *Rolling Into Place*, an interactive storybook. Using provided accordion-folded panels, Velcro® pathways, and accessory items (e.g., brailleable sheets and a package of Sticky Dots Adhesive™), self-designed books can be tailored to the interests and needs of a particular child with a visual impairment or blindness. The construction materials are accompanied by a full-color User's Guide that provides story suggestions, tips for adding tactile embellishments, and sample book layouts. Enjoy designing your own tactile books with this starter kit. If possible, involve your student/child in the construction fun.

Lots of Dots: Learning My ABC's

Lots of Dots: Learning My ABC's is an exciting raised-line coloring book designed for future large print and braille readers. It facilitates braille character recognition through repetitive activities designed for young children with visual impairments and multiple disabilities.

Each letter of the alphabet has two pages: the first page features a jumbo braille cell, with six raised-line open circles; the second page shows the letter and a tactile graphic depiction of an easy-to-find object that begins with that letter.

Attached to the inside front cover is a plastic stencil of the jumbo cell, which allows the student to practice a braille cell configuration by tracing or by using the accompanying foam braille chips.

With its infinite knot shapes and variety of colors and textures, the Tangle Toy® can be used in various forms to encourage a child to explore, move, and play.

The Tangle Toy includes segments that feature bright colors, each color with its own unique texture. Combine the curved segments to create a high-contrast toy that can be twisted into an infinite number of shapes. This provides a visually and tactually interesting object to help catch a child's attention. Because each colored segment has its own texture, activities that are focused on using specific colors are easily adapted for the child who is blind.

The activities and games in the Tangle Book help sighted and visually impaired peers refine motor skills, color discrimination, and tactile discrimination.

Tangle Toy® and Tangle Book Kit (includes one large print guidebook and three Tangle Toys):

Expanded Dolch Word Cards

These flashcards, consisting of 220 sight vocabulary words and 95 words with pictures, can be used for reading practice or an informal assessment of a student's ability to read words in contracted braille and to spell words in uncontracted braille.

Cards measure 3 1/2 x 2 inches, with an orientation corner cut. Words are shown in contracted braille on one side and uncontracted braille on the other, with large print on both sides. Picture word cards contain a picture corresponding to the word. 30 blank cards allow for adding words. Indexing tabs and storage box included. Recommended ages: 5+

FOCUS in Mathematics

Activity-based program emphasizes the fundamental operations, properties, and structures of math. Includes over 400 manipulative items, designed to be easily handled and to offer tactile and visual contrast. Concepts include:

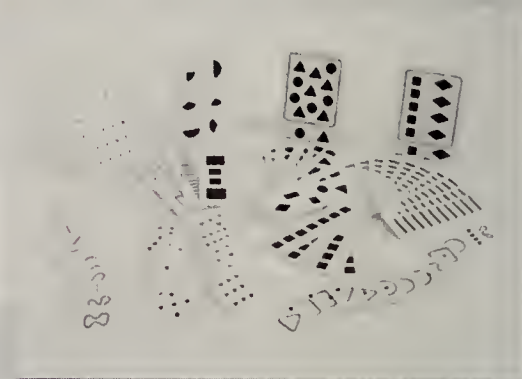

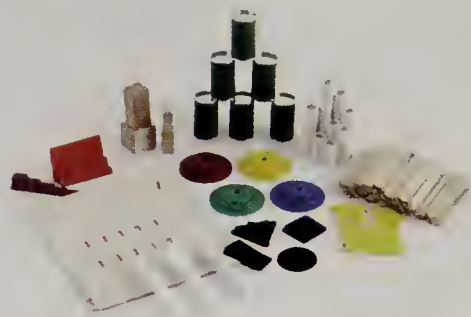

- Sorting, matching, counting
- Addition and subtraction
- Fractions
- Graphs
- Time and money, etc.

Includes an Academic Program (general use) manual. Special manuals are available separately with activities for students who are deafblind or multiply disabled.

Recommended ages: 4 years and older.

Multiplication and Division Table

A large print / braille tool to help math students with multiplication and division problems. The grid can be used to find the product of two whole numbers from 1 through 9 or the quotient of a related division problem.

The chart is printed / embossed on heavy braille paper and is punched for a 3-ring binder. Comes with five charts and an instruction booklet.

5-82700-00.....\$25.00

Instruction Booklet only:
7-82700-00.....\$5.00

Math Flash™

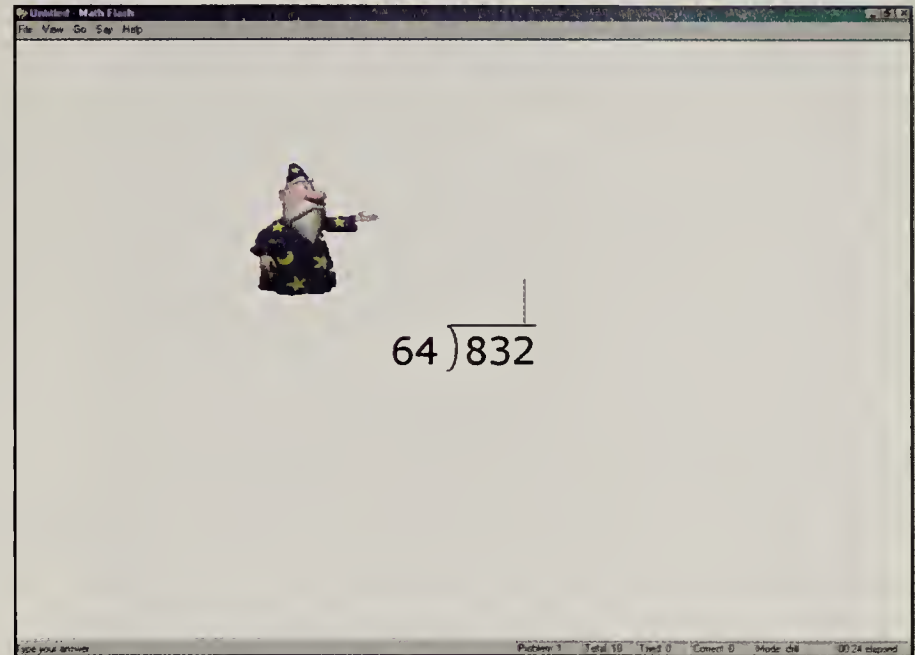

Software helps elementary students sharpen math skills with talking electronic flash cards. This self-voicing program uses the computer's sound card to communicate instructions, drills, practice sessions, and games.

Students can select their favorite fun Math Mentor character. Teachers can modify the number of problems, degree of difficulty, and insert custom problems.

Recommended ages: 6 years and up.

Requirements to Run

- Windows® 98 or 2000 or later including XP

Orion TI-36X Talking Scientific Calculator

This calculator has identical functions to the popular Texas Instruments® TI-36X calculator:

Features

- Ideal for all students – junior high through college, algebra I through calculus and applied mathematics such as engineering
- Over 127 scientific functions, including 1 & 2 variable statistics, trigonometry, and unit conversion
- High-quality speech. Keys speak when pressed, display can be spoken at any time, speech can be turned off
- Unique key-learning mode without interrupting current operation
- Large, tactile, functionally zoned keys
- Rechargeable battery, over six hours of continuous operation, auto-shutoff.

Includes:

- Earphone
- Power adapter
- One year limited warranty

Orion TI-36X Calculator:
1-07335-01.....\$249.00

Not available for purchase with Federal Quota funds.

Digital Clock Model

Demonstrate how a digital clock works with this durable teaching tool. Has numbers in large print and literary braille on three manually adjustable wheels (hour, ten minute, and minute). Housed in a black plastic case with non-skid rubber feet. (This is a model only and has no motor.)

- Teach basic time concepts
- Contrast digital and analog clocks
- Introduce travel schedules or explain digital time/distance tracking devices

1-03126-00.....\$26.00

Analog Clock Model

Helps teach about time-telling concepts. Has braille and raised large print markings and hands that are easily rotated. The hands are synchronized like those of an actual clock (the Model has no motor).

Recommended ages: 6 to 10 years.

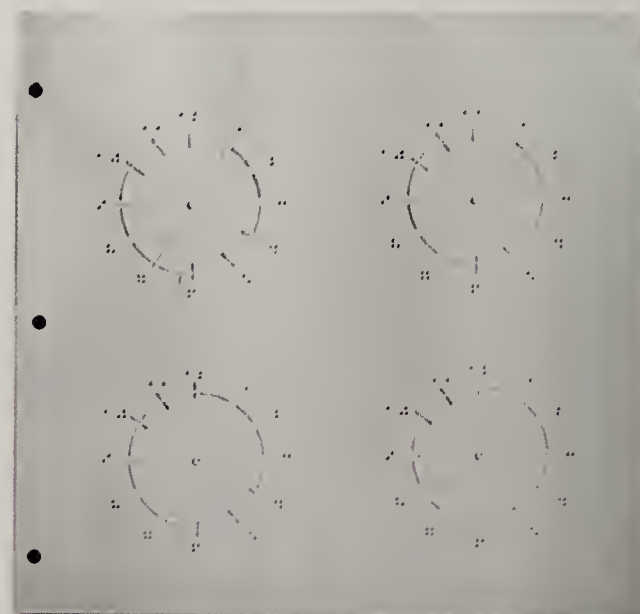

1-03125-00.....\$16.00

Clock Face Sheets in Braille

Each sheet contains four embossed braille clock faces. Hands can be added to these blank clock faces. Embossed on manila transcribing paper measuring 11 1/2 x 11 inches. 3-hole punched. 25 per package.

Recommended ages: 6 to 10 years.

1-03111-00.....\$16.00

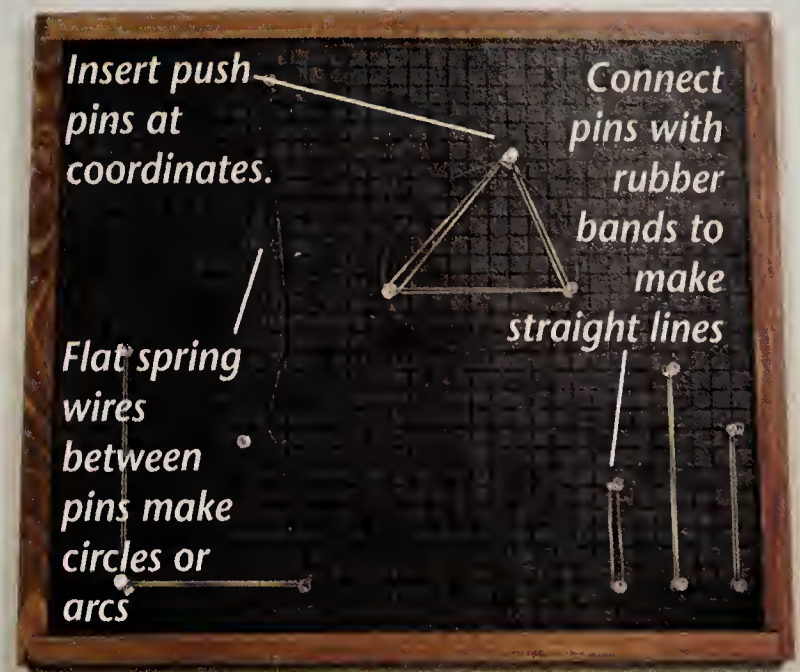

Graphic Aid for Mathematics

Construct geometric and other figures and graphs related to arithmetic, algebra, geometry, trigonometry, and calculus.

Consists of a cork board mounted with a rubber mat embossed with a 34 x 30 grid of 1/2 inch squares. Included are three flat spring wires, 14 push pins, and rubber bands.

Recommended ages: 8 years and older.

1-00460-01.....\$123.00

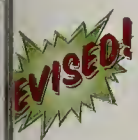

Geometry Tactile Graphics Kit

Set of thermoformed raised-line drawings depicting geometry concepts, figures, and relationships. Graphics are larger and easier for students to measure than those in braille textbooks.

Kit includes 26 white plastic thermoform sheets measuring 8 1/2 x 11 inches. 52 drawings total. Includes two specially adapted protractors, a teacher's guide in print and braille, and a storage binder.

Recommended ages: 12 years and older.

1-08841-00.....\$63.00

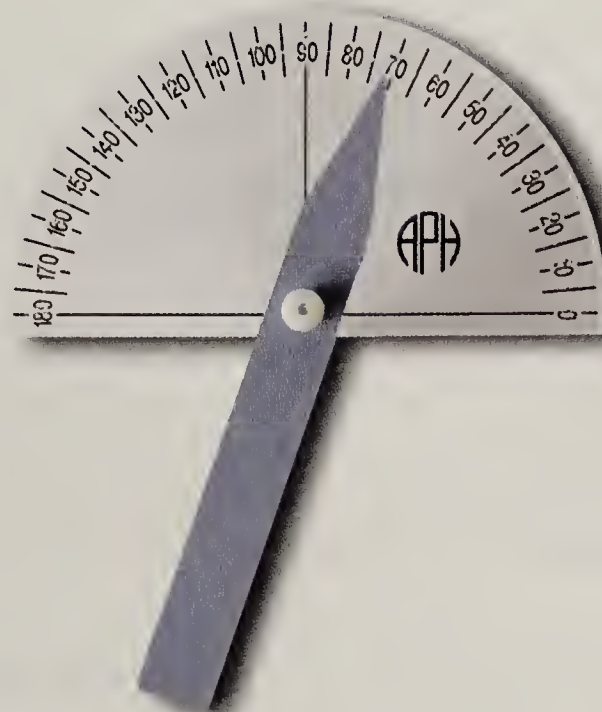

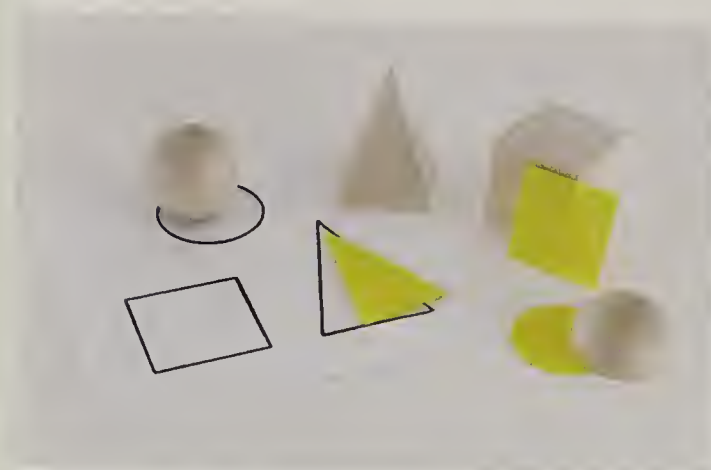

Braille/Print Protractor

Bold large print numbers and raised dots mark the 180 degrees of this protractor. This revised model has markings every 5 degrees, rather than every 1/2 degree. The lines are bolder and the type is now 18 point. The ruler markings have been removed.

Protractor features a pivoting wand. When aligned with a certain degree measurement, the corresponding angle is created by the wand and the bottom edge of the protractor. Includes print and braille instructions.

1-04115-00.....\$10.50

Geometric Forms

Introduces students to the circle, square, and triangle. Kit includes three plane figures, four solid figures, and a white plastic sheet illustrating the three shapes in black, raised lines.

Recommended ages: 5 years and older.

1-03410-00.....\$44.00

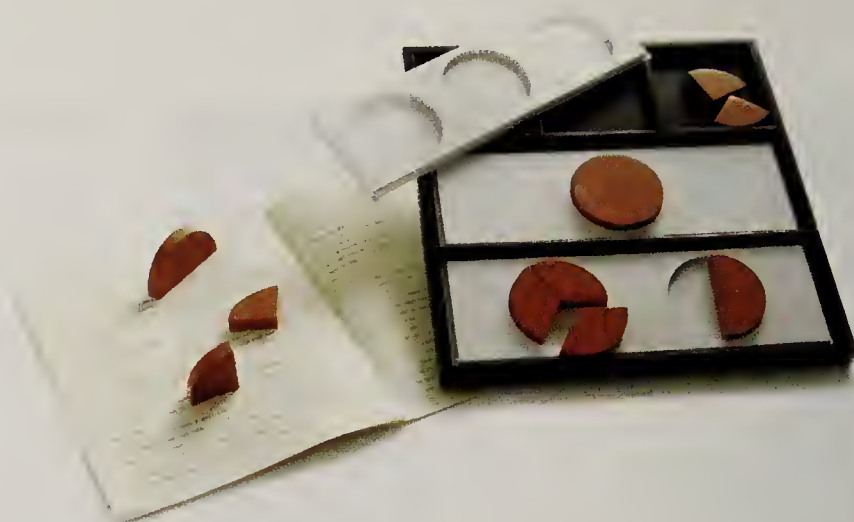

Fractional Parts of Wholes Set

Tactile circles introduce the concepts of wholes, halves, thirds, and fourths. This set contains:

- One work tray
- Three form boards
- Four 3-inch diameter circles, one whole and the others cut into halves, thirds, and fourths

Recommended ages: 5 years and older.

1-03290-00.....\$42.00

APH Number Line Device

Supplemental device bridges the gap between concrete representations and abstract concepts of numbers.

Base holds two number lines for comparison (e.g., tens and fourths). Instructions in regular print.

Recommended ages: 5 years and older.

1-03480-00.....\$87.00

10 interchangeable number lines with black raised lines and varying dot intervals numbered in braille and large print.

Brannan Cubarithm Slate and Cubes

Young students may find it easier to use this device rather than a braille to align problems such as multiplication.

A rubber frame with a 16 x 16 grid pattern of nests will hold small plastic cubes numbered 0 through 9 in braille (no print). Each cube represents one digit. Frame and cubes are sold separately.

Recommended ages: 6 years and older.

Cubarithm Slate 1-00320-00.....\$21.00

Plastic Cubes (Set of 100)
1-00330-00.....\$18.00

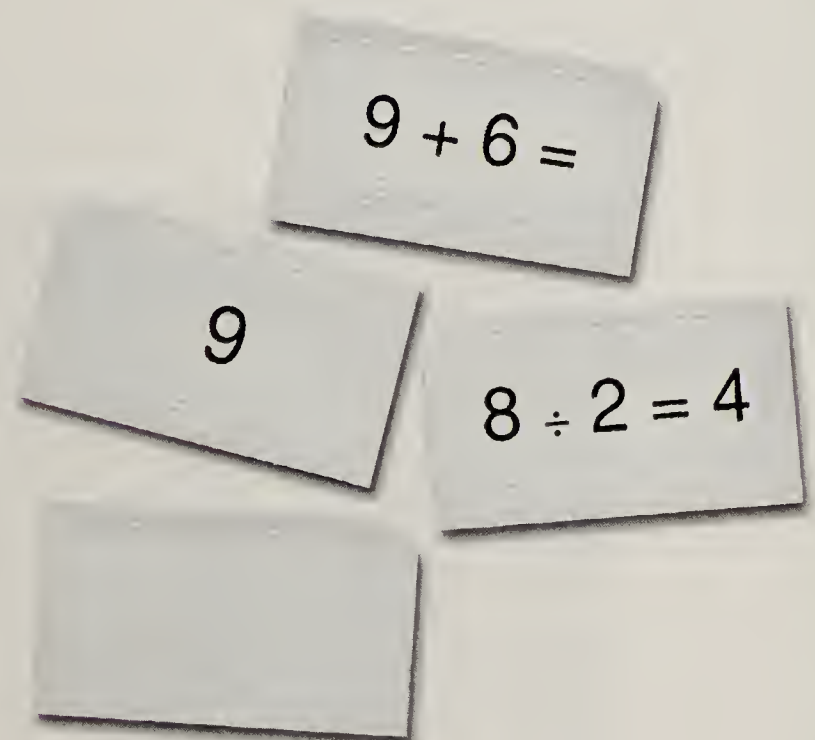

Math Drill Cards in Braille and Large Type

Handy math skill reinforcing cards. Sold as five separate sets.

The cards in the Number and Math Sign set have a math sign or number sign in braille on one side and in large type and braille on the other side. Large type/braille math operations cards have a math fact on one side and the fact with the answer on the other side. Braille on cards is Nemeth Braille Code for Mathematics.

Cards measure 3 1/2 x 2 inches. On low-glare paper with black printing and an orientation corner cut.

Recommended ages: 5 to 10 years.

Number & Math Sign Cards:
1-03551-00.....\$7.00

Addition Cards: 1-03552-00.....\$7.00

Subtraction Cards: 1-03553-00.....\$7.00

Multiplication Cards:
1-03554-00.....\$7.00

Division Cards: 1-03555-00.....\$7.00

Note: Some assembly required. Storage box not included. These cards can be used with APH's Card Chart on page 79.

Hundreds Boards and Manipulatives

These two boards and included manipulative items can be used to help teach basic math concepts. Includes two desk-sized boards made of heavy-duty plastic.

The Grid Board has a raised-line, 10 x 10 grid outlined in black. Grid is blank and manipulatives can be attached to it.

The Number Board also has a raised-line 10 x 10 grid outlined in black. This grid is preprinted with the numbers 1 through 100 in large print and in Nemeth Braille. This board acts as a reference to check work placed on the Grid Board and can be used for concept demonstration.

Included are hundreds of manipulative pieces made of tough plastic and backed with loop material for attaching to the Grid Board. There are two kinds of manipulatives, numbers (1 through 100) and four colored shapes.

Uses include:

- Patterning
- Counting
- Ordering numbers
- Comparing numbers
- Addition, subtraction, and multiplication
- Graphing data
- Using cardinal directions

Recommended ages: 5 to 10 years.

Hundreds Boards and Manipulatives:
1-03105-00.....\$114.00

Note: Some assembly required.

Numbers only: 1-03105-01.....\$15.00

Quick Pick Math

Math game consisting of a plastic packet containing fifty large print/braille cards. The front and back of each card contains a math question and four possible answers. To play, the student inserts the included tool in one of four holes in the front of the plastic packet. If the answer is correct, the card will slide out. If the answer is incorrect, the card will not pull out, and the student should try again.

Subtraction: 1-03571-00.....\$30.00
 Multiplication: 1-03572-00.....\$30.00
 Division: 1-03573-00.....\$30.00

Recommended ages: 5 years and up.

Quick Pick Math:

Addition: 1-03570-00.....\$30.00

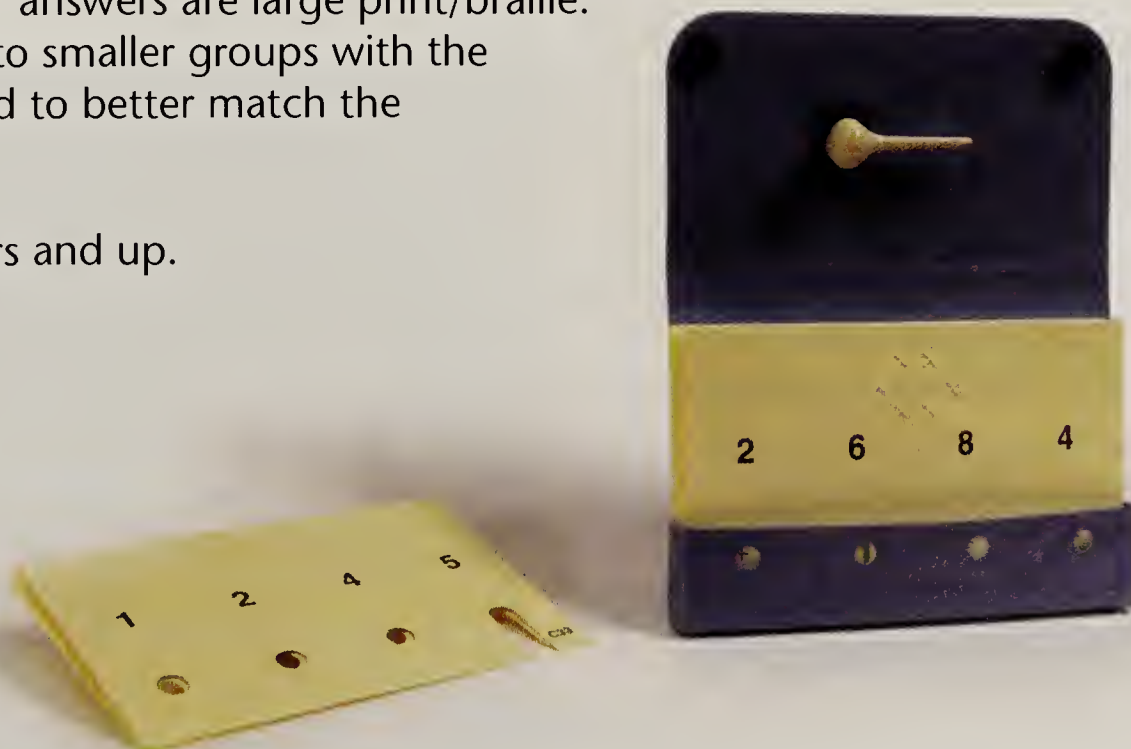

Quick Pick Counting

Game designed to help young children learn to count to 12 with raised-line symbols and braille numbers. Can also be used with developmentally delayed students.

Game includes fifty one-sided game cards in a plastic packet and is played as described above in Quick Pick Math. The student counts the tactile symbols and then reads the correct braille number. The raised-line symbols are embossed only, the number answers are large print/braille. Cards can be subdivided into smaller groups with the raised-line symbols arranged to better match the student's skill level.

Recommended ages: 4 years and up.

1-03574-00.....\$30.00

Cranmer Abacus

13-rod abacus. Frame measures $6 \frac{1}{8} \times 3 \frac{1}{4}$ inches. White beads have a diameter of $\frac{3}{8}$ inch. Dark felt backing prevents beads from slipping.

An optional metal coupler is available for linking two abacuses together.

Recommended ages:
5 years and older.

Cranmer Abacus:

1-03150-00.....\$21.00

Coupler for Cranmer Abacus

1-03160-00.....\$6.00

Beginner's Abacus

A counting frame for reinforcing beginning mathematical concepts such as one-to-one correspondence, counting, place value, addition and subtraction. Introduces basic abacus terms such as "set" and "clear."

Consists of a black rectangular frame with 2 rods. Rods have 9 large white beads that slide against a dark felt backing. Frame measures $2 \frac{1}{2} \times 5 \frac{1}{2} \times 1$.

Print guidebook included. Braille guidebook available separately.

Recommended ages: 5 to 7 years.

Large Abacus

Young students and those without fine motor skills can benefit from this large 13-rod abacus. Frame measures $8 \frac{1}{4} \times 4 \frac{1}{2}$ inches and the bead diameter is $\frac{1}{2}$ inch. White beads slide against a dark felt backing.

Recommended ages: 5 years and older.

1-03170-00.....\$24.00

Hands-On Experience with the Cranmer Abacus

These two VHS videotapes and accompanying booklet are designed to familiarize you with basic uses of the Cranmer Abacus.

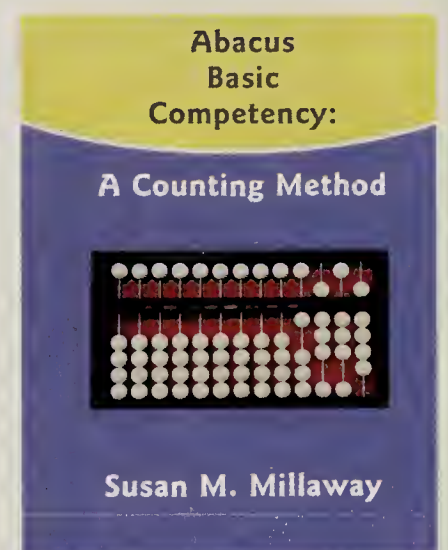

The concepts and skills covered include how numbers are represented and how to perform the four basic math functions on the abacus.

1-30004-00.....\$25.00

Abacus Basic Competency: A Counting Method

An instruction manual to teach children and adults abacus skills in the four basic math operations. This abacus instructional system uses the Counting Method instead of the traditional indirect method. Advantages include:

- Simple method comparable to the way young sighted children count and add by counting things one at a time, as in counting on fingers or time lines.
- Minimum number of rules must be learned in order to arrive at an answer to a mathematical problem.
- Speed in using the abacus is not lessened with this method. Accuracy is increased, frustration is eliminated.

Flexible Rulers (Braille/Large Type)

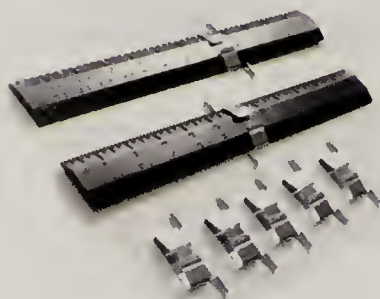

These flexible rulers allow tactual and visual measurement of flat or curved surfaces. Recommended ages: 5 years and older. Two are offered:

18-Inch Flexible Ruler (package of five):

1-03050-00.....\$10.00

30-Centimeter Flexible Ruler (package of five):

1-03031-00.....\$9.00

1-Foot Braille Rulers

Plastic rulers taper on the edge. A metal caliper slide to aid in accuracy is included (also available separately). Recommended ages: 5 years and above. Two versions are offered:

Metric-English Measurement Ruler:

Metric edge has raised lines every half-centimeter and braille numbers every two centimeters. Opposite English edge has raised lines every 1/4 inch and braille numbers at each inch.

English Measurement Ruler: Has raised lines. Braille numbers at each inch. Fourths on one edge, eighths on the other.

Stick-On Tactile Ruler

Styrene one foot long x 1/2 inch wide with double-sided adhesive on back. Can be cut down if needed. Raised lines (no braille or print) indicate divisions to 1/8 inch.

Recommended ages: 8 years and older.
Package of five.

1-03081-01.....\$6.00

Meterstick (Braille)

Plastic, drilled for hanging, with raised lines every centimeter, and braille every other centimeter; thick raised lines for decimeters.

Recommended ages: 5 years and older.

Sense of Science Series

Sense of Science is a unique series designed to make the world of science accessible, understandable, and enjoyable. All learners can benefit from this hands-on, multi-sensory approach, although Sense of Science is recommended for early elementary age students.

The main component in each Sense of Science kit is a set of colorful, raised-line overlays designed to be used with a light box, or as stand-alone items. An accompanying guidebook suggests activities using the overlays and supplemental teacher-provided materials to enhance and extend the learning experience.

Two modules are currently available, **Sense of Science: Plants** and **Sense of Science: Animals**. Additional modules are planned for the future.

Sense of Science: Plants

Sense of Science: Plants is the first module of a planned science series for visually impaired students in grades K-3, and for other students who may benefit from a multisensory approach to learning.

Includes:

- A large print guidebook (braille edition available separately) with activities to teach basic plant concepts. Activities use real objects and the included colorful, raised-line overlays.
- Overlays include bean seed cross-section, flower, leaf, tree, etc. Use with the optional APH Light Box or Mini-Lite Box, or stand alone.
- Two accompanying trays designed to fit under a light box ledge and provide a secure working area for the overlays.

Recommended ages: 5 to 10 years.

Mini-Lite Box: 1-08661-00.....\$160.00

Sense of Science: Animals

Sense of Science: Animals is the second module in this tactile/visual "hands-on" series. Activities incorporate a learning objective, a list of vocabulary and needed materials, an initial inquiry, a step-by-step procedure, an extended activity, a visual adaptation, math and language connections, and a "science tidbit." Activities are also provided using the accompanying overlays.

Includes:

- A large print guidebook (braille edition available separately) with easy-to-follow activities, a glossary, list of resources, and bibliography of related children's books.
- A variety of visual and tactile overlays, such as ant, bird, fish, life cycle of a frog, etc. that can be used alone or with the optional APH Light Box or Mini-Lite Box.
- Two trays designed to slip snugly under a light box ledge and provide a secure working area for using the overlays.

Recommended ages: 5 to 10 years.

Sense of Science: Animals (complete kit):

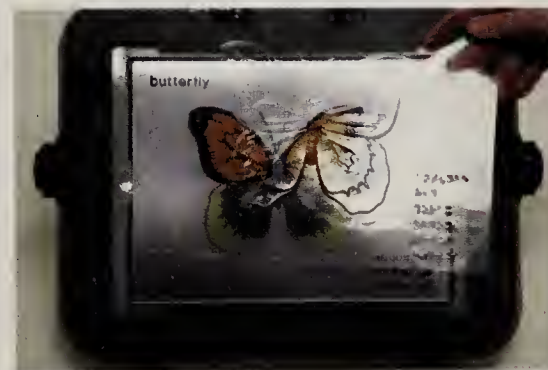

1-08990-00.....\$225.00

Large Print Guidebook only:

7-08990-00.....\$25.00

Optional Braille Guidebook only:

5-08990-00.....\$44.00

Tactile overlays include braille.

Mini-Lite Box sold separately.

Tactile Demonstration Thermometer

Allows students to independently read, set, and compare temperatures.

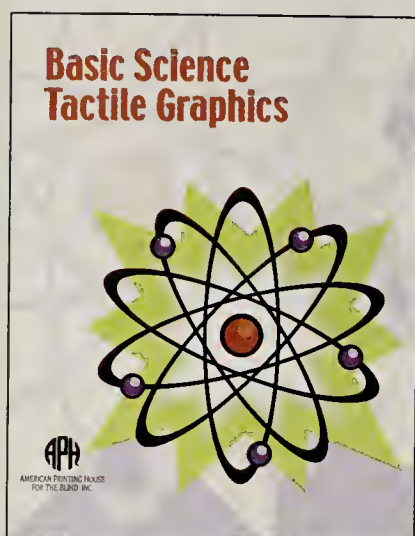

- A two-textured, two-colored adjustable "mercury column" with an easy-grip tactile indicator
- Comparable Fahrenheit and Celsius scales presented in both large print and braille
- Tactile degree markings every 5 and 10 degrees

Recommended ages: Basic thermometer activities can begin at age 6.

Tactile Demonstration Thermometer: 1-03020-00.....\$44.00

"Mercury column" slides up and down to demonstrate temperature reading.

Basic Science Tactile Graphics

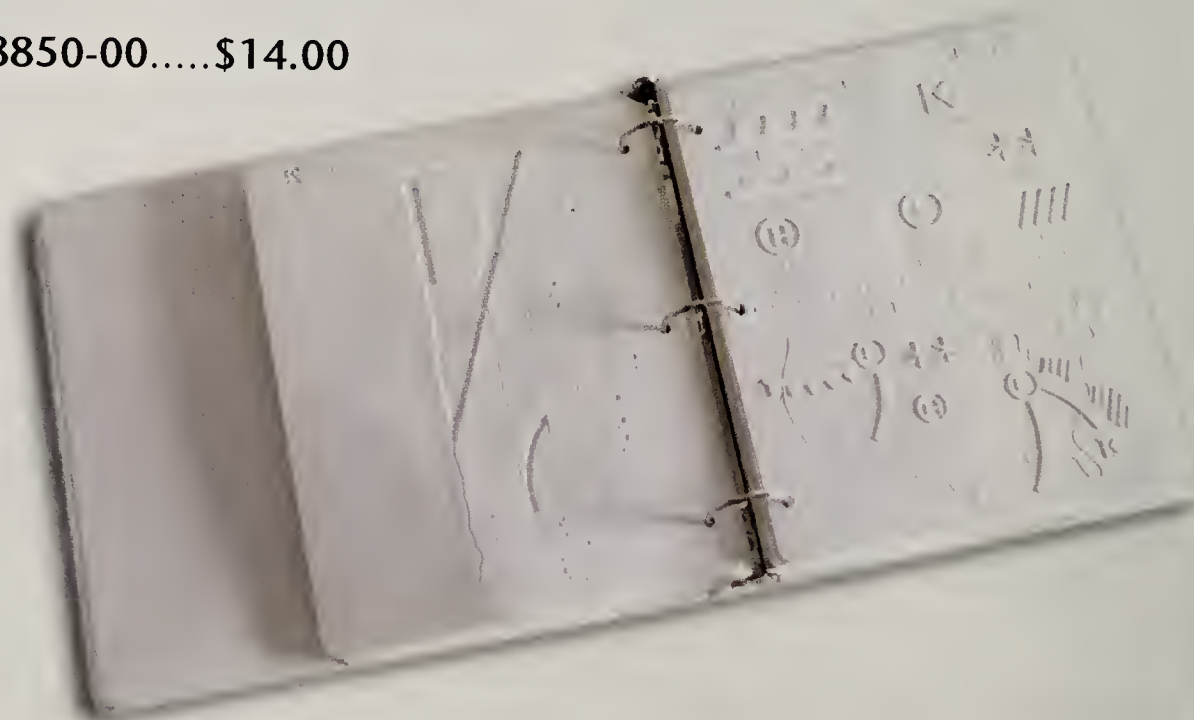

Basic Science Tactile Graphics are vacuum-formed raised-line drawings depicting objects, concepts, and relationships that are covered in nearly all elementary science textbooks. They are intended to supplement, not replace, the graphics in a student's adapted textbook. Instructional hints and suggestions are given for each tactile drawing.

Includes 52 graphics, such as: Insect, Blood Flow from Artery to Vein, Sound Frequencies, Volcano Formation (Cutaway View), Water Molecule, and Forces Acting on Airplane in Flight.

Periodic Table of Elements, Print/Braille Version

This frequently requested reference item is now available in a durable and colorful print/braille version. The chart comes with a reference booklet in print and in braille (also available separately) that contains additional tables listing the elements by name, atomic number, electron configurations, etc. Measures approximately 22 1/2 x 13 inches.

Periodic Table of Elements Reference Chart: 1-08855-00.....\$54.00

Periodic Table of Elements Reference Booklet, Print: 7-08855-00.....\$19.00

Basic Tactile Anatomy Atlas

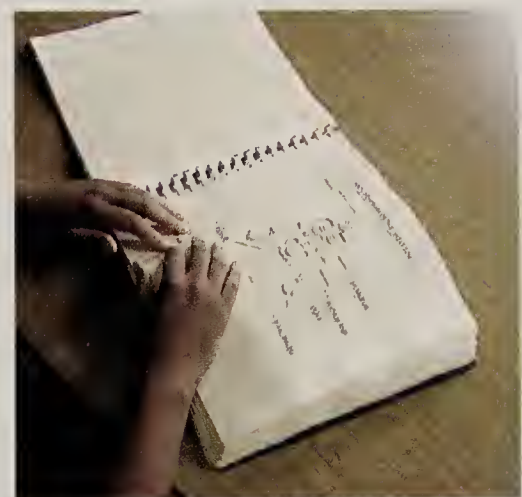

This two-volume set of thermoformed tactile graphics gives a comprehensive overview of the body. Includes the skeletal, muscular, nervous, and endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems.

Each tactual diagram has braille and print labels accompanied by a brief braille description. A print version of each brailled text is contained in the included Instructional Text.

Recommended Ages: 12 and up.

World Maps

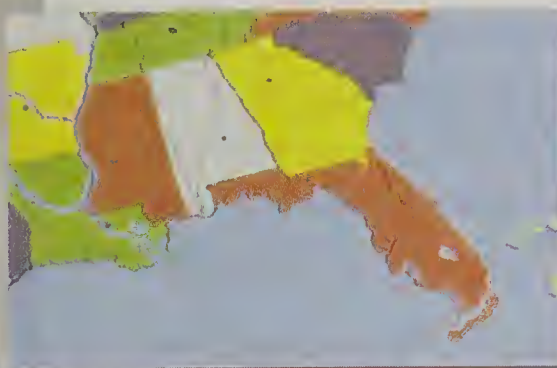

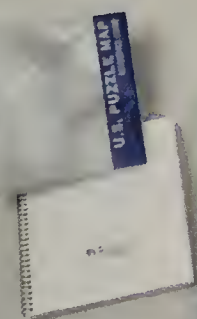

These thermoformed tactile maps are a comprehensive aid to geographic instruction and orientation. This volume contains tactile maps of all the continents, regions, and countries of the world. *World Maps* are reproduced from original high-quality works by The Princeton Braillists. They differ from other tactile maps in that they use clear variations in height and texture, allowing a greater amount of readable information in a given space.

Thermoformed on durable 11.5 x 11" vinyl, the maps include rivers, mountain ranges, bodies of water, and other physical features. Political features include country borders and capital cities. Maps of Russia and the 50 U.S. states are presented on larger fold-out pages. The maps are labeled in braille, and facing pages have key information in braille and large print.

Guided Art Stories

This set of audiocassettes introduces students to thought-provoking adventures based on characters found in paintings and sculpture.

First, a verbal description of the work of art is given, allowing the listener to visualize a picture in the mind's eye. After listening to a story about the artwork, the student creates a storyboard or diorama based on the story. The final step is for the student to describe and explain the picture he or she has constructed. This becomes a valuable lesson in the power of descriptive language for blind and sighted students alike. Includes print guidebook and three 1 7/8 ips, 2-track audiocassettes.

Time for Art: Art Projects and Lessons for Students with Visual Impairments

Time for Art is a handbook for teachers and parents that explains how to instruct visually impaired students in art, how to handle the media being explored, and points to consider in art program planning. Companion lessons are offered for each project and often explore other areas such as science, history, or mathematics.

Projects include:

- Fake Fossils
- Raised Line Drawings
- Sandscript
- Aluminum Repoussé
- Papier-Mâché Bowls
- Mixed-Media Puzzle of Me
- Pinch Pot
- Coiled Pot

A comprehensive list of suppliers is offered at the end of the guidebook to aid teachers and parents in finding materials for the projects offered.

Time for Art consists of a regular print guidebook and a CD-ROM. The CD contains an HTML edition of the guidebook that is accessible to visually impaired users.

Tactile Connections: Symbols for Communication

An augmentative communication system for learners who are nonverbal and who have multiple disabilities.

This kit helps teachers create a tactile card system that is individualized for visually impaired and blind learners who have additional disabilities and/or lack a formal means of communication or literacy. The tactile symbols are created when part of an object is mounted on a hand-sized card representing core vocabulary categories (e.g. people, places, actions, objects, etc.). This kit provides some of the essential components that assist in a system's construction and application.

Includes:

- Large Print Guidebook with CD with teaching strategies, applications, a Pictorial Library of suggested core vocabulary, and card assembly instructions. The CD provides PDF, HTML, and BRF editions of the guidebook.
- 105 Mounting Cards in a variety of colors and shapes (15 each of 7 different colors).
- Accessories with Caulk, a starter-package for card assembly. Includes items such as caulk, Velcro® tabs, craft foam, puff paint, needlepoint canvas, rhinestones, adhesive material for braille and print labels, etc.
- Storage box

Recommended Ages: 5 and older. **WARNING:** Choking Hazard-Small Parts. Not intended for children ages 5 and under without adult supervision.

Talking Typer™ for Windows® **Now with Enhanced Voicing**

Talking Typer is computer keyboarding and typing training software that speaks and displays lessons on screen. Includes drills, practice, and typing games. Adjustable to the student's level of skill and sight impairment. Recommended ages: 6+

Options for Ordering: All three options noted below contain the latest version of the *Talking Typer* program. The only difference is the higher or lower quality of the synthetic speech.

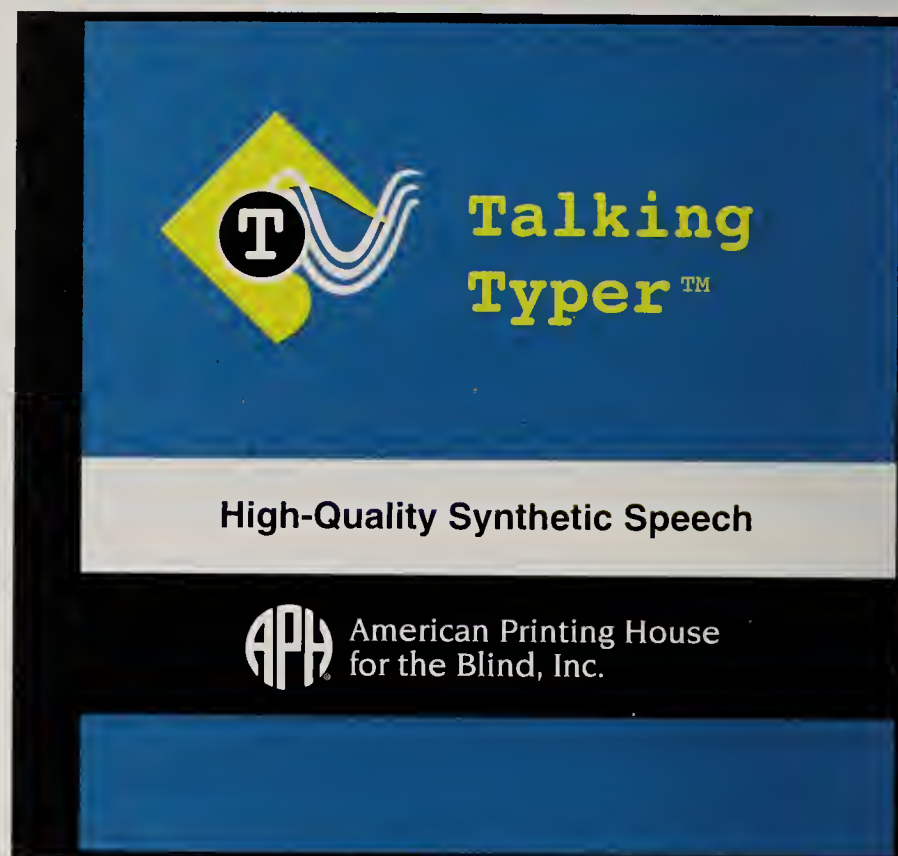

Talking Typer (with Enhanced Voicing) uses new computer voices that sound much closer to human speech. This version of *Talking Typer* provides a higher measure of intelligibility and less fatigue for audio users.

Talking Typer (without Enhanced Voicing) is lower cost and is available by electronic download only.

Talking Typer Upgrade will allow you to add Enhanced Voicing to any version of *Talking Typer* for Windows that you currently own. The Upgrade will also upgrade your copy of the *Talking Typer* program, if needed.

Requirements to Run

Braille Contraction Cards

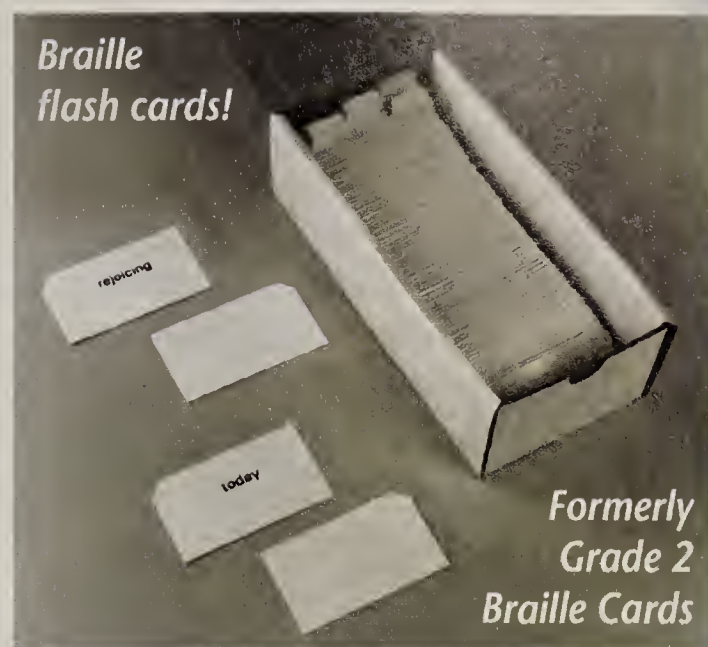

Flashcards for drilling on the braille literary code. Includes in both large print and braille:

- Alphabet and numbers
- Punctuation and composition signs
- One-cell whole-word and part-word signs
- Two-cell contractions
- Short-form words

There are 247 cards, measuring 3 1/2 x 2 inches. The first 26 cards contain the braille alphabet on one side and large print on the other side. Remaining cards contain Contracted Braille on one side and both Uncontracted Braille and large print on the other side.

Eight blank cards, 30 indexing cards with tabs, and a storage box are included.

Recommended ages: 6 years and older.

Braille Contraction Cards:
1-03561-00.....\$13.00

Can be used with the Card Chart (page 79) or the Expanded Dolch Word Cards, (page 40).

Quick Pick Braille Contractions

The latest in the Quick Pick series of educational games. Quick Pick Contractions includes two cases of fifty cards with each case representing a cross-section of braille contractions. On both sides of the cards, a braille contraction is on the top and four uncontracted answer choices are across the bottom.

To play, read the contraction, pick the uncontracted choice that matches, put the wooden tool in the corresponding hole for the answer, and try to pull the card out of the case. If the card slides out, the answer is correct. If incorrect, the card will not slide out. The object is to "quick pick" as many cards as possible on the first try.

1-03576-00.....\$62.00

Swing Cell

Introduce beginning braille users to the braille cell using this teaching device. Two rectangular blocks are hinged on the top and mounted on a wooden base. Pegs can be inserted into the blocks to represent braille dots, three pegs per block. With the blocks in the vertical position, the pegs form the braille cell. With the blocks in the horizontal position, the pegs show the position of the keys on a braillewriter.

Recommended ages: 5 years and older.

6-78040-00.....\$53.50

Shows the relationship between a braille cell and the keys on a braillewriter.

More portable!

Swing Cell Compact

Similar to the Swing Cell, but without the base. Smaller and lighter than the original. Helps students understand the relationship between the braille cell and the keys on a braillewriter. Internal storage of pegs.

Recommended Ages: 5 years and older.

6-78041-00.....\$35.00

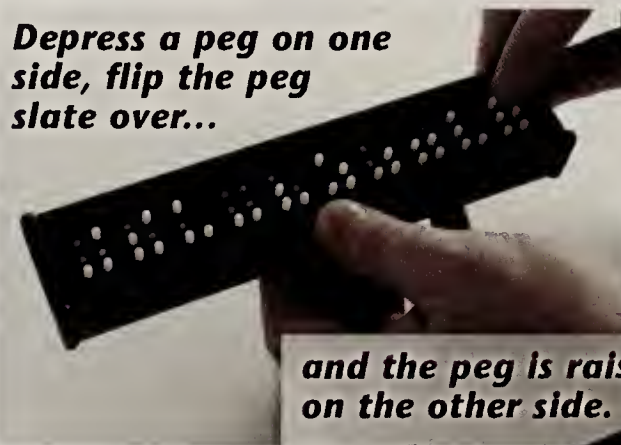

Peg Slate

Paperless device designed to help teach beginning users of the braille slate. A frame is mounted with pegs that represent the braille dots in 10 braille cells. A finger is used to push the pegs down. The frame is then flipped over to read the braille message. Made of black plastic with white plastic pegs for high contrast. Instructions in print and braille.

Recommended ages: 6 years to adult.

1-08830-00.....\$16.00

Patterns: The Primary Braille Spelling and English Program

Teach complete spelling and language skills to primary grade students who will use braille as their main writing medium with this companion program to *Patterns: Reading Program*.

Patterns: Spelling and English is composed of textbooks, posttests, worksheets, and teacher's editions in print and braille. When used with the *Reading Program*, it provides a whole language approach to teaching. Addresses the problems of braille users who must master the braille code as well as learn to communicate in print.

Patterns: Spelling and English, Level A, Braille Teacher's Kit.

- **Level A** corresponds to the Readiness, Preprimer, and Primer Levels of *Patterns: Reading*.
- **Level B** corresponds with the First Reader Level of *Patterns: Reading*.
- **Level C** corresponds to the Second Reader Level of *Patterns: Reading*.

The Braille Connection

The Braille Connection: A Braille Reading and Writing Program for Former Print

Users is designed to teach former adult and teenage print readers how to read braille.

Developed by APH and the National Federation of the Blind (NFB), this program moves quickly through tactual discrimination, on to Uncontracted Braille, and then through Contracted Braille.

Note: Designed to be used under the supervision of a qualified braille teacher.

Teaching Touch

Teaching Touch helps parents or teachers encourage young children (ages 4–7) who are blind to become active explorers and readers of tactile graphics. Teaching Touch uses real stories to bring important points to life.

Various skills that contribute to exploration and appreciation of tactile graphics are addressed. These include: • tracking • searching • verbal description • use of symbols. Teaching Touch includes a separate booklet that introduces the use of exercise sheets to promote tactile tracking, scanning, and comparison.

DRAFTSMAN Tactile Drawing Board

 DRAFTSMAN is a versatile tactile drawing board that is used in combination with special film and a stylus to create instant raised-line images. Intended for a wide audience, such as students, teachers, parents, and adults with blindness, the DRAFTSMAN can be used for:

- Producing simple raised-line graphics
- Demonstrating math concepts and tasks
- Demonstrating science concepts
- Practicing handwriting skills
- Playing games (e.g., tic-tac-toe)
- Facilitating tracing activities
- Creating art drawings

DRAFTSMAN Tactile Drawing Board:
1-08857-00.....\$175.00

Additional Tactile Drawing Film (25 sheets):
1-08858-00.....\$6.00

DRAFTSMAN has a plastic frame that encases a double-layered rubber surface. Clamp a sheet of included drawing film onto the board and use the included stylus or a ballpoint pen to quickly draw a raised image. Kit includes:

- DRAFTSMAN Tactile Drawing Board
- Two-ended tactile drawing stylus
- Tactile inch-ruler
- 25 sheets of drawing film (also available separately)
- Braille/print instructions booklet
- Carrying case

Textured Paper Collection

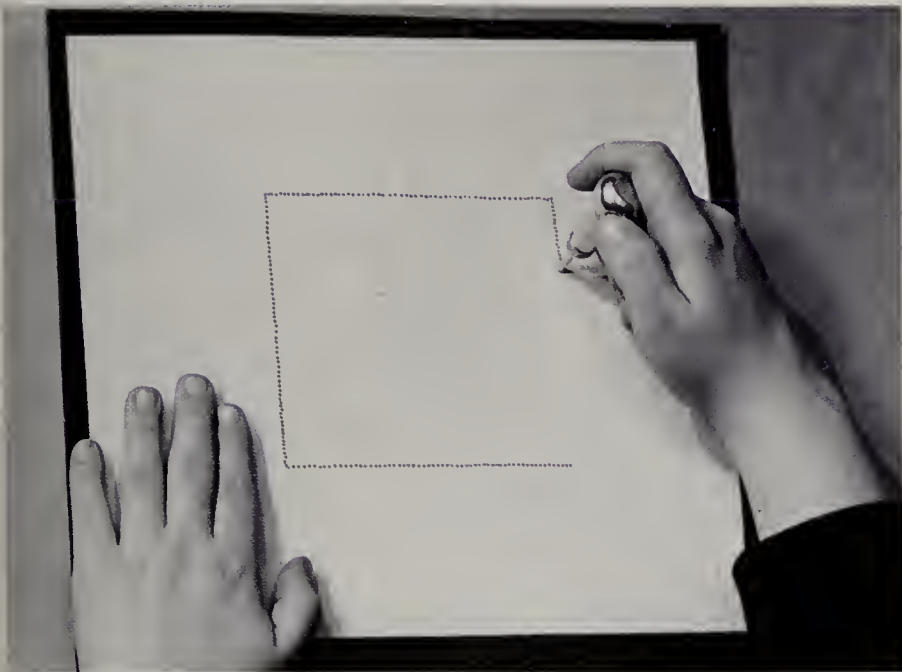

The Textured Paper Collection contains tactile colored sheets that can be cut out and applied to another surface for many purposes:

- To make tactile items on worksheets
- To create areal patterns in tactile diagrams
- To add texture to adapted storybooks
- To create tactile artworks
- To label household items or books

The kit includes the following:

- Blue and neon green embossed paper (2 sheets each)
- Yellow and clear vinyl (1 sheet each)
- Red, orange, green, and black Tactile Colours® (1 sheet each)
- Double-sided adhesive (7 sheets)

Textured Paper Collection:

Swail Dot Inverter

Construct simple diagrams, graphs, maps, etc. by embossing a series of single dots.

Includes a special metal stylus and a 12 x 12 inch rubber pad. Braille paper (sold separately) is placed on top of the pad. Special stylus allows dots to be embossed upwards by puncturing the paper on the down stroke and then pulling the dot upwards on the up stroke (leaves undetectable hole in dot). Works best with Brailon® plastic braille paper, available from American Thermoform, www.americanthermoform.com.

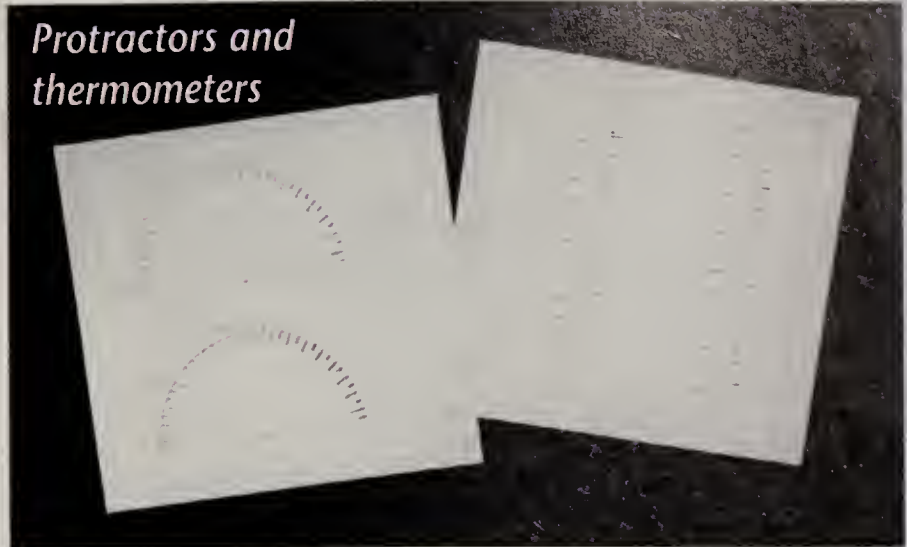

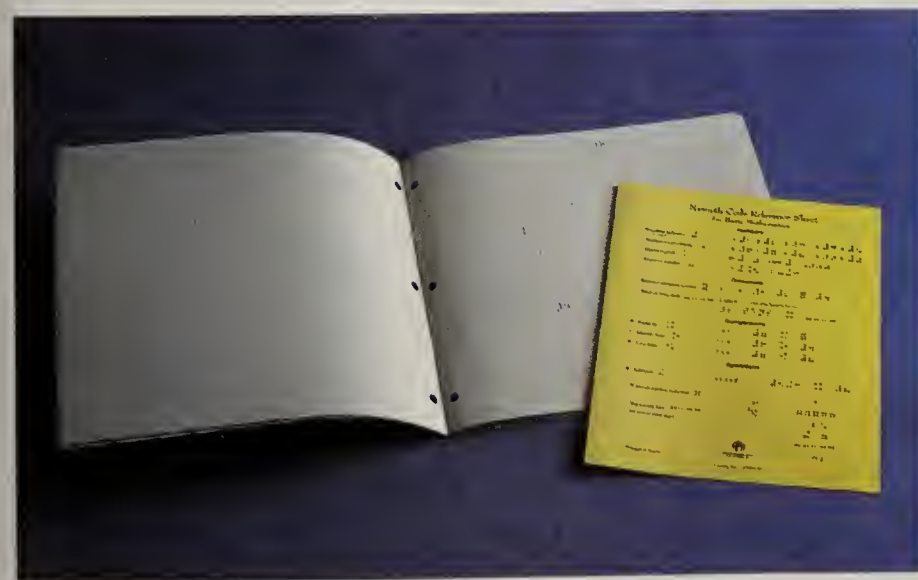

Recommended ages: 5 years and older.

Braille Transcriber's Kit: U.S. Maps

The Braille Transcriber's Kit: U.S. Maps is a collection of embossed and printed drawings of figures commonly found in history, geography, and social studies textbooks.

The embossed sheets may be used as templates for thermoforming. Add to them with spur wheel lines, craft ink, glued-on textures, braille labels, and other tactile graphics materials.

The printed maps may be used as outlines for tracing or as masters for "swell paper" tactile graphics.

Maps include:

- North America, including Canada, the United States, and Mexico
- U.S. outline (Alaska and Hawaii included, not to scale)
- U.S. with 50 states outlined
- Western region states
- Eastern region states
- Original 13 colonies

1-04101-00.....\$18.00

Braille Transcriber's Kit: Countries and Continents

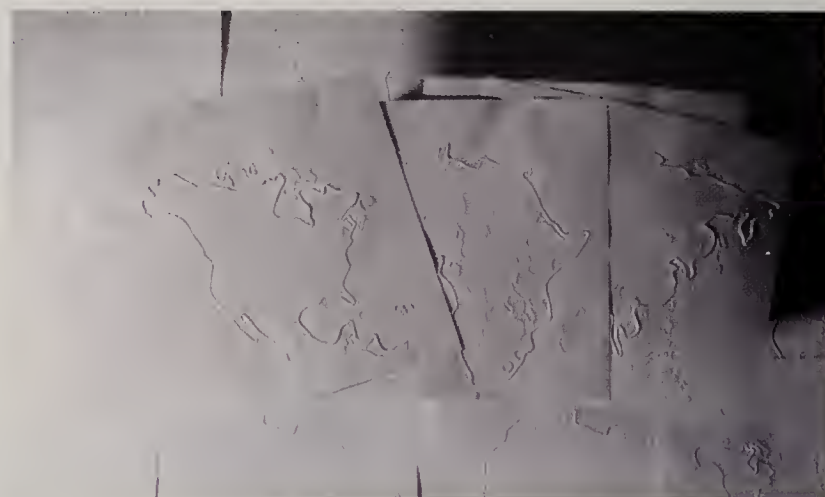

The Braille Transcriber's Kit: Countries and Continents is a collection of embossed and printed outlines of maps commonly found in history, geography, and social studies textbooks. Maps included:

- Africa (political)
- Africa (outline)
- Asia (political)
- Asia and Australia (outline)
- Europe (political)
- Europe (outline)
- Middle East (political)
- North America and Central America (political)
- South America (political)
- World (outline)

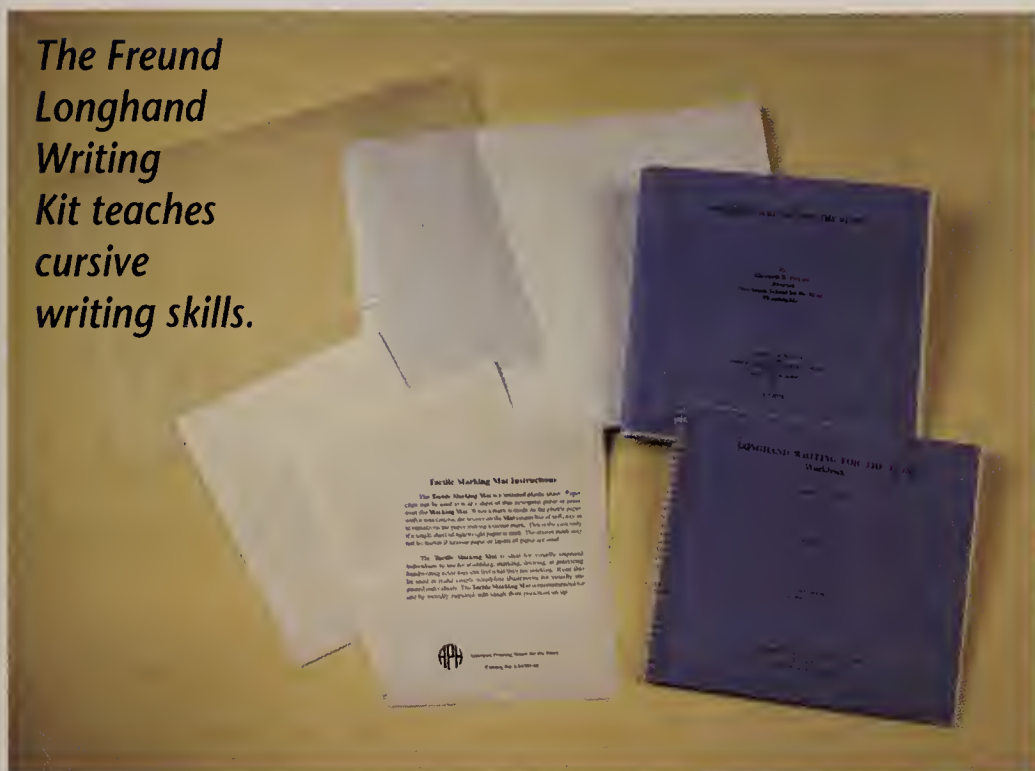

The embossed sheets may be used as templates when you create tactile maps. Add spur wheel lines, craft ink, glued-on textures, braille labels, etc.

The printed maps may be used as masters for "swell paper" tactile graphics. Photocopy the images onto your capsule paper, add labels, lines, and symbols, and produce the raised image by running the graphic through the heating machine.

Expanded Core Curriculum:

Visual Efficiency and Low Vision

Visual Efficiency Skills

The visual acuity of children diagnosed as visually impaired varies greatly. With thorough, systematic training, most students with functional vision can learn to use their remaining vision better and more efficiently. Educational responsibility for performing a functional vision assessment, planning appropriate learning activities for effective visual use, and teaching students to use their functional vision effectively and efficiently falls to the professionally prepared teacher of visually impaired learners.

RollBuster

The original RollBusters from APH are foam rings that keep your monocular from rolling away and provide some protection from impact.

The RollBuster rings come in pairs. You supply your own monocular. You place one ring around each end of your monocular. The rings friction-fit to the monocular and have flat surfaces on their outside edge so that the monocular is prevented from rolling.

RollBusters come in a set of five pairs, with four different sizes. The sizes of the inside diameters are: triangles – 25 mm; squares – 28 mm; pentagons – 30 mm; and hexagons – 40 mm (there are two pairs of the 30 mm size).

RollBuster (set of five pairs):
1-03195-00.....\$5.00

RollBuster II

Keep monoculars in reach during classroom activities, while protecting them from rolling. RollBuster II mini-bags also provide some impact protection.

Comes in two kid-friendly styles. The mini-duffel bag fits monoculars up to 4 inches in length and up to 1 1/2 inches in diameter. The mini-backpack fits monoculars up to 5 inches in length and up to 1 3/4 inches in diameter or a monocular which is oval or irregular in shape.

Bag has a strip of extra hook / loop material stitched to its underside to allow attachment to a flat surface.

ENVISION

The ENVISION training program uses stories and activities about Emmy the Emu and other high-interest characters to teach students to use optical devices. It covers skills such as tracing, tracking, and scanning, and includes enrichment activities and objectives for each lesson, as well as reports to the clinician.

There are two separate ENVISION programs, with each further divided into materials for younger and older students.

- **ENVISION I for Distance Devices** – simulates standard street signs, addresses, international symbols, and familiar objects.

- **ENVISION II for Near Magnification Devices** – simulates graphics and print used in textbooks and literature.

ENVISION I Program *without* Telescope Array includes:

- Two large print teacher manuals for monocular telescopes: one for students 10 and younger, and one for students 11 and older
- Consumable materials packet with Clinician Report Forms, Student/Parent Interview Forms, and Certificates
- 48 distance cards
- Two "Emmy the Emu" puppets
- One Tote bag

ENVISION I Program *with* Telescope Array includes above materials along with five of the most commonly used monocular telescopes (2X, 4X, 6X, 8X, 10X) in a foam-lined case.

ENVISION II Program *without* Magnifier Array includes:

- Two large print teacher's manuals for hand-held magnifiers: one for students 10 and younger, and one for students 11 and older.
- Two student activity books
- Consumable materials packet with Clinician Report Forms, Student/Parent Interview Forms, and Certificates
- Two "Emmy the Emu" puppets
- Five *Mystery of the Magnifiers* comic books
- One Tote bag

ENVISION II Program *with* Magnifier Array includes the above materials along with six of the most commonly used hand-held magnifiers (1.8X, 4X, 5X, 6X, 8X, 10X) in a foam-lined case.

APHont™ (pronounced Ay'-font), was developed by APH specifically for low vision readers. APHont embodies characteristics that have been shown to enhance reading speed, comprehension, and comfort for large print readers. The entire APHont Suite (Regular, Bold, Italic, and Italic Bold) is available free-of-charge on the APH website.

Features:

- Higher crossbars. (example: attention)
- No serifs.
- Wider letters.
- Heavier letters.
- Letters more open
- Larger punctuation marks. (examples: !?.,:)"
- This entire page is set in APHont

NOTE: APH makes no claim that APHont is an appropriate font for children who are just learning to read.

How to Request APHont:

Before downloading APHont, users must validate that APHont will be used by or for visually impaired persons. Visit www.aph.org/products/aphont.html to fill out a short verification form. You will then be able to download the font.

Invisiboard

Block out distractions for students with Cortical Visual Impairment (CVI). Recommended by the CVI Synergy group, this 48 by 30 inch, tri-fold board eliminates visual clutter with a solid white, slick material on one side and a solid black, Velcro® compatible material on the other. This portable, lightweight kit includes a convenient carrying case and a print/braille orientation manual.

Invisiboard: 1-08541-00.....\$118.00

Tic-Tac-Toe Accessory Kit:
1-08542-00.....\$12.00

Consists of five each of red and yellow "X" and "O" Velcro®-backed pieces, along with red and yellow Tic-Tac-Toe grids. Can be used with or without the Invisiboard.

Tic-Tac-Toe Accessory kit and Invisiboard sold separately.

Light Boxes

When they are used with unique sets of materials, these light boxes develop awareness of light, color, and objects and assist in the instruction of tracking, scanning, eye-hand coordination, visual discrimination, and visual perceptual skills.

Light Box

Has a lighted translucent white work surface, providing a high contrast background for opaque materials and a source of illumination for colored transparent and translucent items. Includes dimming control to meet the needs of individual students.

Can be used flat or tilted at three angles. Built-in ledges hold overlays in position. Cool, fluorescent bulb is housed in a tough plastic body measuring 25 x 15 x 5 inches. Includes cover. Weight: 13 1/2 lbs. Recommended for all ages.

Light Box: 1-08660-00.....\$366.00

Mini-Lite Box

This cousin to APH's Light Box is:

- Small and light
- Usable at a student's desk or on his/her lap

Operates for 3-4 hours on included rechargeable batteries or can be plugged in with the included AC adapter. Dimming control. Low battery audio signal. Ledges hold overlays in place. Built-in combination handle / tilting stand.

- Measures 16 x 12 3/4 x 2 1/2 inches
- Weight: 6 lbs.

Armadillo Army™ Software

This is APH's newest arcade-style educational game created especially for players with low vision. In *Armadillo Army*, the main character, Tex, navigates a series of increasingly difficult mazes, picking up various items along the way. At the same time, he must evade a band of armadillos traveling through the maze with him. The game contains bright, large graphics, as well as meaningful sound elements.

Armadillo Army gives low-vision students practice with lateral eye movements, vertical eye movements, searching skills, timing skills, visual discrimination skills, peripheral detection skills, eccentric viewing skills, and eye-hand coordination. Students who are blind can play the game using its sound cues.

Requirements to Run

- PC compatible computer running at least Windows® 98, ME, 2000, XP or later
- 500 MHz processor
- 64 MB RAM
- 14MB of hard disk space

VISUAL EFFICIENCY AND LOW VISION

Program to Develop Efficiency in Visual Functioning

Two interrelated kits help train students to use their vision more efficiently.

The Diagnostic Assessment Procedure Kit identifies specific training needs, while the Design for Instruction Kit contains lessons and materials for vision training.

Note: Kit contents may vary from those pictured.

Materials on Utilization of Low Vision (ULV) – Diagnostic Kit

Designed to determine if a student's residual vision is being fully utilized. Consists of two kits purchased separately.

Recommended ages: 5+

Teacher's Kit includes:

- A Teacher's Guide
- Visual Efficiency Scale and Directions for Administration
- Profile of Visual Skills and Behavior
- Record of Performance on Visual Efficiency Scale

Visual Efficiency Scale Kit includes:

- Directions for Administration of Visual Efficiency Scale
- Ten Visual Efficiency Scales
- Ten Profiles of Visual Skills and Behavior
- Ten Records of Performance on Visual Efficiency Scales.

Expanded Core Curriculum:

Orientation and Mobility (Concept Development)

Orientation and Mobility

This is a vital area of learning, which requires delivery by teachers with specific preparation. It emphasizes the fundamental need and basic right of visually impaired people to travel as independently as possible, enjoying and learning to the greatest extent possible from the environment through which they are passing. Students will need to learn about themselves and the environment in which they move — from basic body image to independent travel in rural areas and busy cities.

'K' Sonar Sonic Perceptual Aid

This small, affordable electronic device aids users who are blind or visually impaired with orientation and mobility. By listening to sounds produced by 'K' Sonar, users can determine not only the distance and location of an object, but some of the object's features. Users can even learn to recognize certain objects.

Features:

- Attaches to the golf grip handle of a long cane.
- Headphones provide audio feedback, which changes in pitch to indicate the distance to the object being scanned.
- Two range modes: long range (about 16 feet) and short range (about 6 feet).

Includes:

- Headphones
- Rechargeable battery
- Power adapter
- Quick-start tape with sample sounds

Miniguide US

Miniguide US is a tiny, hand-held electronic travel device that can enhance the effectiveness of a blind person's primary travel method. The Miniguide US uses ultrasound to detect objects, and gives tactual or auditory feedback by vibrating or chirping more rapidly as you approach an object. Ideal for use by deafblind persons.

When used with a cane or dog guide, the Miniguide US can help a blind person avoid obstacles and overhangs; locate landmarks; locate items such as mailboxes or trash cans; and find paths through crowds at ranges from 20 inches to 26 feet.

The Remote Unit is used in an instructional setting so that instructors can receive the same tactual feedback as their students.

- Attaches to Miniguide US with a 12-foot-long cable (included)
- Uses AAA battery (included, user-replaceable)
- Comes with print and braille Quick Start and cassette and print Remote Unit User's Guide

Picture Maker: Wheatley Tactile Diagramming Kit

Fun, colorful tactile board can be used for numerous educational activities!

Includes a felt covered board measuring 20 3/4 x 13 inches, and a wide variety of Velcro[®]-backed pieces that attach to the board in an infinite number of patterns. Features over 100 pieces in many shapes, sizes, textures, and colors. Extra "hook" Velcro material provided for helping create additional tactile pieces.

Example activities:

- Mapping: streets, bus routes, classrooms
- Charting: flow charts of organizations, processes
- Basic concepts: shapes, numbers, spatial relationships, etc.
- Art activities

Guidebook includes suggestions for use and example layouts in print and raised-line graphic form. The guidebook is a large print/braille publication.

Denver the Guide Dog Video

It's a great day at APH as Heathcliff, APH Vice President Gary Mudd's hard working guide dog of twelve years "hands over his harness" to Denver, the young up-and-comer. Produced by Discovery Channel's Animal Planet® *Pet Stories* series, this video is for anyone who would like to know more about guide dogs or would just like to meet Denver.

During this half-hour, see how Denver got his start, "made the cut" at guide dog school, and was matched with Gary. Be amazed at how hard the two of them have worked to become the team they are. There's not a dry eye in the house during the reunion scenes when Denver's puppy trainer returns to find such a confident and capable guide dog! Closed captioned.

Assistive Technology and Electronics

Technology

Technology is a tool to unlock learning and expand the horizons of students. It is not, in reality, a curriculum area, but it is added to the expanded core curriculum because of the special place it occupies in the education of blind and visually impaired students. Technology can be a great equalizer. It enhances communication and learning and expands the world of blind and visually impaired persons in many significant ways.

Speech Expressor (U.S.):
1-07050-00.....\$40.00

Speech Expressor (International):
1-07050-01.....\$40.00

Note: The International model does not come with a power converter. Customers supply their own converter that is compatible with their country's electrical system. This power converter must have an output of 9 volts DC at 300 milliamps and have a plug with a 5.5 mm outside diameter and a 2.1 mm inside diameter (inside negative), with a 10 mm plug length.

Induction Neck Loop

Improve your understanding of voices on tape!

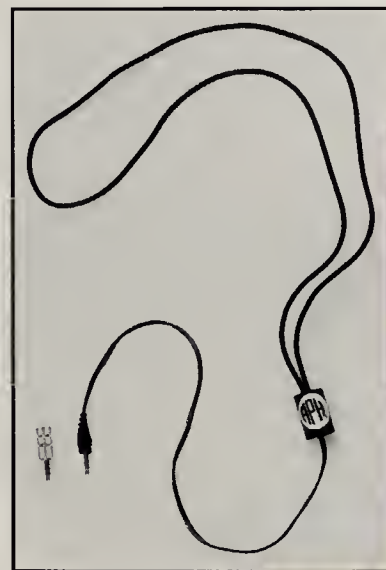

Some hearing aids have a built-in device called a "telecoil." The telecoil can receive a signal from APH's Induction Neck Loop, which consists of a wire loop that the user places around his or her neck.

The Neck Loop plugs into the 3.5 mm headphone jack of an APH cassette recorder/player. You then switch your hearing aid to the telecoil setting. Many hearing aid users find this direct signal improves their understanding of voices on tape.

Check with your hearing aid dispenser if you are not sure whether your hearing aid has a telecoil.

Induction Neck Loop: 1-07095-00.....\$48.00

Note: The Neck Loop does not work with digital hearing aids.

Expanded Core Curriculum:

Career Education and Transition

Career Education

Career education in an expanded core curriculum should begin in the earliest grades to give the visually impaired learner of all ages the opportunity to learn firsthand about the variety of work people do. It will give the student chances to explore strengths and interests in a systematic, well-planned manner. Unemployment and underemployment are leading problems facing adult visually impaired people in the United States, making this portion of the expanded core curriculum vital to the students.

Expanded Core Curriculum:

Daily Living and Social Interaction

Independent Living Skills

This area, often referred to as daily living skills, consists of all the tasks and functions people perform, according to their abilities, in order to live as independently as possible. These curricular needs are varied and include skills in personal hygiene, food preparation, money management, time monitoring, and organization.

Social Interaction Skills

Blind and visually impaired individuals learn social interaction skills through careful, conscious, and sequential teaching. Instruction in these skills is such a fundamental need that it can often mean the difference between social isolation and a satisfying and fulfilling life as an adult.

Expanded Core Curriculum:

Recreation and Leisure

Recreation and Leisure Skills

Many activities in physical education are excellent and appropriate for visually impaired students, but these students also need to develop recreational and leisure activities that they can enjoy throughout their adult lives. Recreation and leisure skills must be deliberately planned and taught to blind and visually impaired students and should focus on the development of life-long skills.

Rib-It-Balls

These fun balls are easy to grab and have high-contrast ribbing. "Crinkly" fabric in the ribs adds an auditory component. The original latex-free multicolored balls have been designed in two-color combinations, making them easier for visual orientation, and are available in three inflatable sizes: 14" (red/yellow), 18" (blue/yellow), and 30" (black/yellow). The 30" ball is sold with a foot pump.

Not designed to be used as a therapy ball. Excessive weight should not be placed upon it.

Mini Rib-It-Ball

This 7" plush ball provides opportunities for multisensory learning. It contains a bell (auditory), bright colors (visual), and a pull tab/teething ring for vibration (tactual/proprioception).

Mini Rib-It-Ball: 1-07512-00.....\$14.00

Talking GlowDice

Rolling a die goes accessible! Push the "Roll" button and a randomly generated number between one and six is announced in digital speech, and the corresponding number is displayed in bright blue LEDs. A "Play Back" button allows for a repeat of the digital voice announcement of the number rolled.

Takes four AAA batteries. Not included

Web Chase

Web Chase is an originally designed board game by APH that is intended to develop important tactile skills within a fun, recreational context. As players navigate their hungry spiders through an insect-laden web, they learn to trace various raised lines, identify point symbols, and discriminated textures and shapes (of various prey).

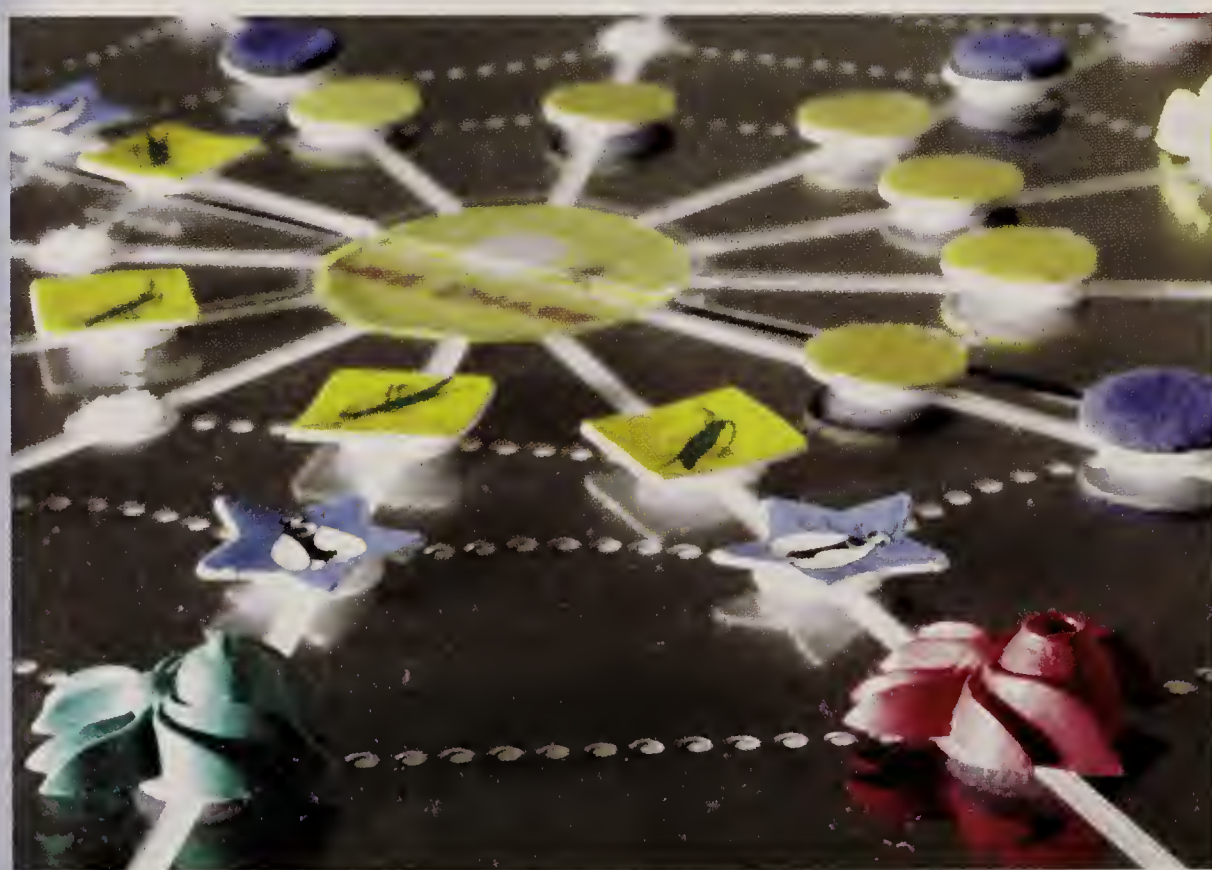

Other concepts and skills developed include visual and tactual scanning, directionality, one-to-one correspondence, turn taking, counting, reading, sorting/organizing, problem solving, strategic planning, interpreting legends/keys, symbolic understanding, and following directions.

Web Chase's combined visual and tactile presentation makes it accessible to all players regardless of visual ability. Intended for ages 5 and older, Web Chase is a game of luck and skill and can be tailored for players' abilities.

Includes

Glow-In-The-Dark Game Board, 3-D Spider Tokens, Basic Shape Prey, Textured Shape Prey, Advantage and Obstacle Cards, Lunch Trays, Card Holder, and Tactile Dice.

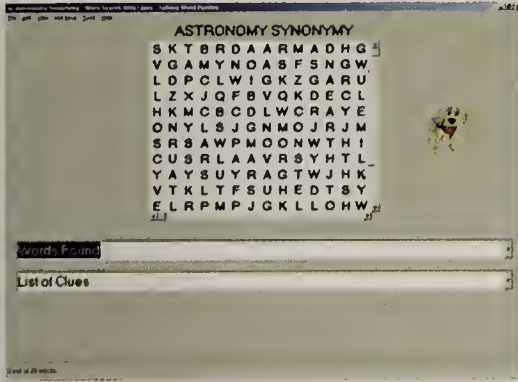

Web Chase: 1-08460-00.....\$149.00

Note: One-time application of Velcro® coins to the game board and lunch trays is required by the customer.

WARNING: Choking Hazard—Small Parts. Not intended for children ages 5 and under without adult supervision.

Talking Word Puzzles™ Software

Lets the user create or solve hidden word and crossword puzzles in large print and with high-quality speech feedback. As the player navigates through the puzzle, the program announces the contents of that square. Speech feedback in hidden

Talking Word Puzzles®

word puzzles also indicates marked and unmarked letters, valid and invalid words, word lists or clues to words, and motivating phrases. Speech can be turned off.

Talking Word Puzzles makes it easy to create your own puzzles. You make up the word list, and the software creates the puzzle for you, entering the words into one of several puzzle formats.

Recommended ages: all ages (dictated by the puzzles created).

Ten Spot Game

Helps teach basic game skills, such as following directions, taking turns, and practice in simple addition. The object is to be the first to land on spaces whose numbers add up to 10. Pegs are used to move along a 14-hole "ladder" on the game board with the number of moves determined by a spinner. Spinner and holes are marked in braille and large print. Two- to four-player game. Instructions in print. Recommended ages: 6+

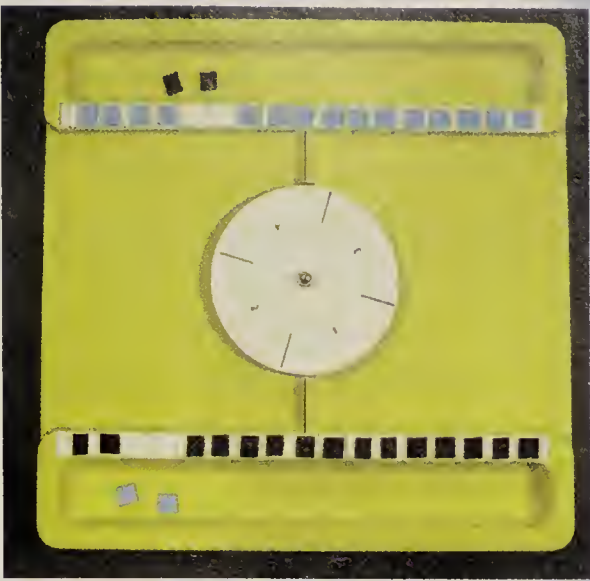

1-08920-00.....\$97.00

The Game of Squares

Teaches basic game skills. Is an adaptation of the two-player pencil and paper game in which dots are connected to make squares. Two players alternate placing plastic "sides" on the board to enclose a square. Completed squares are covered with the player's marker; the player who covers the most squares wins. Game board has a 16-square game grid, and storage areas for game pieces. Instructions in print. Recommended ages: 6+

1-08430-00.....\$48.00

Take Away Game

Two-player game helps children learn basic game skills. Players alternate spinning the spinner to determine how many pieces may be taken from the opponent. When a player has no pieces left, the other player wins. The spinner, mounted on a game board, is marked with braille and large print numbers. Two strips of metal hold the magnetic game pieces. 17 black, rough-textured pieces and 17 blue, smooth-textured pieces are included. Recommended ages: 5+

1-08900-00.....\$106.00

Score Card Set

Generic Score Card made of durable plastic. Has twenty "buttons" in two rows of ten. Push down on a button to register one event. Pop up buttons to clear. You can assign one row as the "tens" row to keep track of up to 110 events.

Includes one yellow and one green card. Instructions in print and braille.

Recommended ages: All ages.

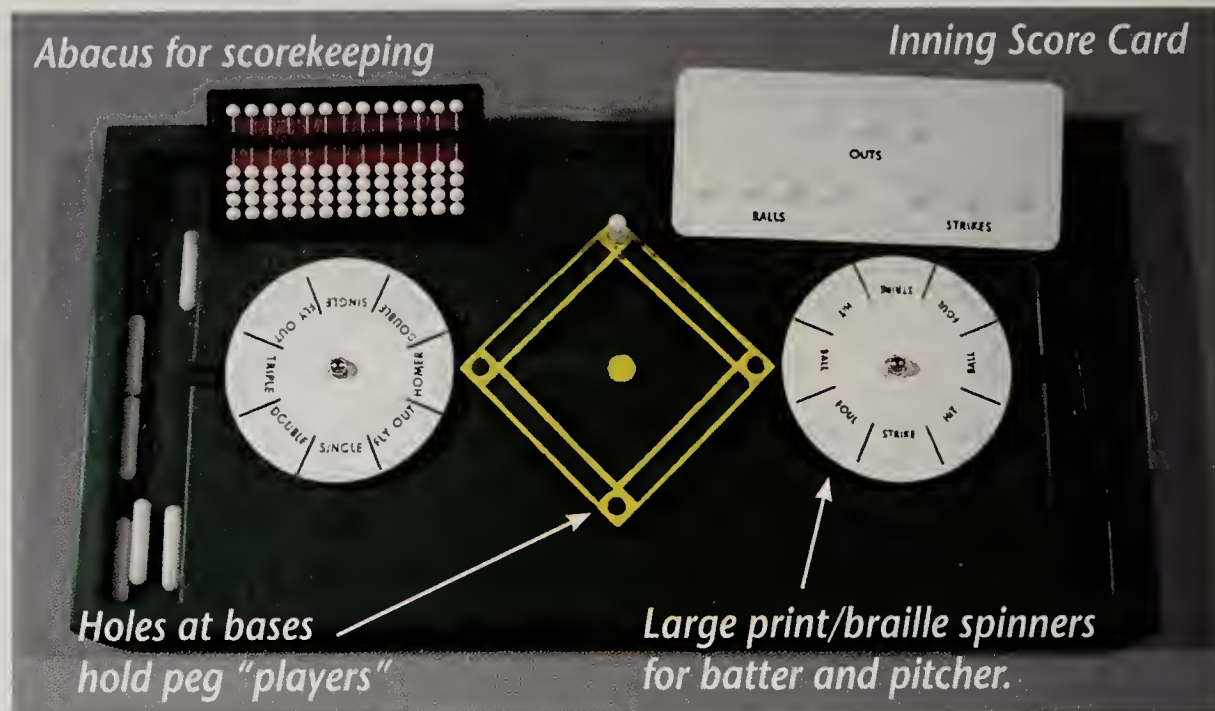

Score Card Set: 1-17001-00.....\$10.25

Terry Kelly
The Power of the Dream

The Power of the Dream
Music CD by Terry Kelly

The Power of the Dream is a CD from inspirational singer/songwriter Terry Kelly. Kelly, who is visually impaired, says of this album:

“I have discovered that the power of the dream gives hope, strength, courage, empowerment, and brings about profound transformation in individuals and groups of people, if one simple rule is followed – honor the dream by taking action.”

The Power of the Dream contains 13 uplifting songs and a print / braille booklet with a limited amount of information in braille. The disc is an enhanced CD that can be inserted into your PC or Mac® for access to additional information,

such as the song lyrics and articles about braille and braille music.

You can hear clips from this album by visiting www.terry-kelly.com/power.htm.

About the Accessible Textbooks Department

The strategic vision of the APH Accessible Textbooks Department (ATIC), a textbook division of APH, is to effectively respond to the textbook needs of blind and visually impaired students by delivering custom-produced accessible textbooks in a variety of media in a timely manner.

Small-Size Large Print Books: A Revolution in Textbook Design!

The new ATIC Large Print Process is now fully available. This process uses proprietary software to create large print textbooks at standard textbook size! This standard-size large print textbook is full-color with a minimum 18-point font size.

The traditional APH enlarged print process continues to be available. All enlarged print books are in full color (if the original submitted book is in color). These are the books in the larger-size binding.

Braille Textbooks

ATIC continues to offer braille textbooks that feature full-color covers and a unique, easy-to-handle fold-back binding.

New ATIC Textbook Ordering Process

You no longer are required to send in print copies of textbooks for braille or large print orders!

To order an ATIC textbook in braille or large print you must go to the APH website, click on the Accessible Textbooks Department banner, and download the braille or large print order form. If you do not have internet access, contact APH and we will be happy to mail or fax you the forms.

Three Steps to Ordering Textbooks

1. Complete your textbook order form.
2. Complete your Federal Quota or Purchase Order Form.
3. Photocopy the following pages of your textbook:

The front and back cover of the book

The title page

The back of the title page (including copyright and ISBN information)

All information must be submitted together before your order can be processed.

You can mail it, fax it, or email it!

For additional information about large print orders, email largeprint@aph.org. For additional information about braille orders, email ATIC@aph.org. You may also call 800-223-1839 for information about large print or braille.

Hall of Fame for Leaders and Legends of the Blindness Field

APH is home to the Hall of Fame, dedicated to preserving and honoring the history of outstanding professionals who have served in the fields of education and rehabilitation of people who are blind or visually impaired. The Hall is a project of the entire field of blindness. Inductees include Helen Keller and many others who have made remarkable contributions to the lives of visually impaired people. The Hall includes accessible multimedia displays and artifacts and is free-of-charge. Visit the virtual Hall of Fame at www.aph.org. Click on "Hall of Fame."

For more tour information, contact the APH Public Affairs Department at 502-895-2405, ext. 356 or 1-800-223-1839.

APH Museum Traveling Exhibits: Bring History to Life at Your Location

The APH Callahan Museum now offers four traveling history exhibits. Each exhibit draws on the Callahan Museum's unique collection and extensive research on the history of the education of blind people. You can rent these exhibits for display at your school, library, or other organization.

"IN TOUCH WITH KNOWLEDGE: The Educational History of Blind People"

Kiosk-style exhibits feature interactive displays with original artifacts, reproductions, graphics, tactile exhibits, and hands-on activities. The exhibit focuses on the history of tactile innovations in four areas: reading and writing, geography, mathematics, and science. Braille labels, large print, and audio text descriptions provide complete accessibility. This 800-square foot exhibit is modular, allowing for flexible exhibit arrangement.

"Building A Future: U.S. Residential Schools for Blind and Visually Impaired Students"

Free-standing exhibit features a chronological arrangement of photo illustrations. The photos show historic buildings of sixty-one U.S. schools. This compact exhibit includes descriptions in large print and braille.

"War of the Dots"

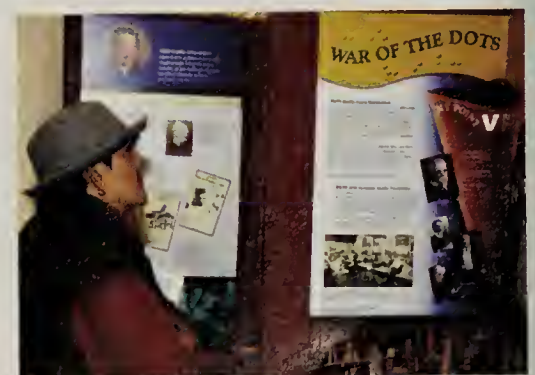

Colorful tabletop-size traveling exhibit presents the history of English-language dot systems, including the revisions and debates leading up to agreement in 1932 of the standard dot system, Standard English Braille Grade Two. The exhibit includes large print text and photo illustrations on a foldout panel, historic books embossed in different dot systems, and braille booklets.

NEW! "Historic Braillewriters"

Nine braillewriters from the Callahan Museum collection are displayed in this hands-on tabletop-sized exhibit. A brief history of each machine is provided on braille plaques below a series of colorful graphics panels.

HOW TO ORDER AND RELATED INFORMATION

- **In Person:** Come to our Louisville, Kentucky facility: Monday-Thursday, 8:00 a.m. to 3:00 p.m. Eastern time
- **If you are ordering for an organization:** And have an account established with APH, use your organization's purchase order. If you do not have an established account, use one of the ordering methods listed above (such as a credit card) or inquire about establishing an account for your organization.
- **If you are ordering with Federal Quota funds:** For a residential school, state department of education, rehabilitation agency, or other agency which has been assigned Federal Quota funds, use a Quota Order Form. This form must be signed by the Ex Officio Trustee for your account prior to submission to APH.

Terms of Payment—Domestic

Payment must accompany order (with the exception of purchase orders and Federal Quota orders). APH accepts:

- Checks
- Money orders
- Discover®, MasterCard®, and Visa® credit cards
- Purchase orders from organizations with established accounts. Terms for open account orders are NET 30. Include a photocopy of APH's invoice with your remittance. If you would like to establish an open account, please contact our Accounts Receivable area.
- Please do not mail cash. Please do not email your credit card number.

Sorry, no C.O.D.s.

Charge Card Orders: For charge card orders, please include the following:

- Card type
- Card number
- Expiration date
- Signature
- Telephone number

Kentucky State Sales Tax: Residents of Kentucky must send state sales tax along with the purchase price of their orders: Kentucky State Sales Tax: 6%

Please note that product prices are subject to change without notice.

For Customers Outside of the U.S.— Ordering Methods & Terms of Payment

International customers please order by one of these methods:

- Use a credit card (Discover®, MasterCard®, or Visa®). To order by credit card, call us at **1-502-895-2405**, fax us at **1-502-899-2274**, or mail us a print, braille, or cassette letter. Include your credit card number and expiration date. Please do not email your credit card number.
- Mail us a check drawn on a U.S. bank.
- If you have an established account with APH, mail or fax us your organization's purchase order. To establish an account, please call Accounts Receivable at **1-502-895-2405**.
- Mail us a Letter of Credit drawn on National City Bank, Louisville, Kentucky, U.S.A. Note that this is the only bank from which we will accept Letters of Credit.
- Request a pro forma invoice: Mail or fax us a letter of inquiry specifying which products you wish to order. Also include whether you prefer shipment by surface or air mail. We will send you a pro forma invoice showing product prices, shipping costs, and insurance costs (see "Shipping Methods" and "Insurance").
- **Request a pro forma invoice over the web:** APH offers an easy-to-use form on our website for requesting a pro forma invoice. The form will prompt you for all of the information we need to give you a complete cost for your international order. Please visit www.aph.org/products/proforma.html.

For Customers Outside of the U.S.— Insurance

Insurance for Overseas Shipments: If we ship products which are greater than \$15 in value overseas by Free Matter for the Blind, we will automatically insure the shipment at the customer's expense. The charge for this insurance will be listed on the pro forma invoice.

For All Customers—Ordering Information Needed

Please include the following information when ordering:

- Catalog numbers
- Quantity
- Product names
- Price each
- Total amount of purchase
- Method by which the products are to be shipped
- Kentucky state tax, shipping charges, and insurance charges, if applicable (see "Terms of Payment," "Shipping Methods," and "Insurance").
- Total amount due
- APH account number (if you are ordering with a purchase order or a Federal Quota order)

For All Customers—Shipping Methods

Shipping Methods within the U.S.: Most items ordered by or for people who are visually impaired will be shipped Free Matter for the Blind, unless otherwise requested.

To have items shipped other than Free Matter, write or call APH before placing an order. Tell us the items you wish to order and the type of shipment preferred. APH will then give you the cost of shipment. The shipment cost must be sent along with the purchase price of the items when you mail in the order. Also write on your order the type of shipment you prefer. Shipment choices other than Free Matter within the U.S. include:

- U.S. Postal Service® Priority Mail: Two-to-three day delivery to any address (including P.O. boxes). No additional charge for Saturday delivery. No Sunday or holiday delivery.
- U.S. Postal Service® Express Mail: Guaranteed next day delivery to most addresses (including P.O. boxes), seven days a week, 365 days a year. No additional charge for weekend or holiday delivery.
- United Parcel Service® (UPS) Ground: Four-to-seven day delivery to street addresses only (no P.O. boxes). No weekend or holiday delivery.
- UPS 3-Day: Guaranteed three day delivery to street addresses only (no P.O. boxes). No Saturday, Sunday, or holiday delivery.
- UPS 2-Day: Guaranteed two day delivery to street addresses only (no P.O. boxes). No Saturday, Sunday, or holiday delivery.
- UPS Overnight: Guaranteed next day delivery to street addresses only (no P.O. boxes). Additional charges for Saturday delivery. No Sunday or holiday delivery.

Note: Normal APH order processing time is usually 2-4 days before a product is actually shipped.

Shipping Methods Outside of the U.S.: Certain items ordered by or for visually impaired people can be shipped to most overseas destinations via Free Matter for the Blind (surface mail). These include books, paper, and slates/styluses. The shipping charges for all other APH items must be paid by the customer. We recommend shipment by air mail, as surface mail is slow. All export and/or import duties, brokerage fees, etc., are paid by the customer. Please check with your customs broker to make arrangements in advance.

Two Ways to Order APH Software Products

APH offers two convenient ways to order most of our software products.

- Order the CD-ROM via mail, toll-free phone, or website.
- Purchase the program through Electronic Distribution. Download the demonstration version of the program from our Website (www.aph.org/tech). Then phone our toll free number (**1-800-223-1839**) and give us your credit card number. Within 24 hours, we will give you a code key that transforms your demo copy of the program into a full copy.

For All Customers—Returns Policy

Defective Merchandise:

APH makes every effort to inspect merchandise before it leaves our facility. If by chance you do receive an item which is defective, we will repair or replace it at no cost to you (we reserve the right to choose whether we will repair or replace the item). In the case of items that have a specific warranty, we must be notified within one year of the date the item was shipped to the end user. In the case of items that do not have a specific warranty, we must be notified within 30 days of the date the item was shipped to the end user. For more information on warranties, please refer to the following section.

Other Returns:

We want you to be satisfied! You may return most APH products for any reason within 60 days of the date that the item was shipped from APH, subject to the following conditions:

- We require prior authorization for a return. Write or call APH Customer Service to explain which items you would like to return. We will give you a Return Authorization Number. When returning the items to APH, please write this Return Authorization Number on the outside of the shipping container. APH will refuse a product return if the Return Authorization Number is not written on the outside of the shipping container.

When returning items to APH, include your original purchase order number or a copy of the original packing slip or invoice. This will allow us to process your return more quickly.

- Items must be nondamaged and in a resalable condition.
- A 10% restocking charge will be deducted from your refund. This charge will not exceed \$15.00 per item for individuals and \$50.00 per item for organizations.

Note: The following items may not be returned for any reason other than defects:

- Software: APH offers free demo versions of our software for you to try. Once you have ordered a full copy of the software, whether a CD or an electronic download, the software may not be returned. The only exception is that you may return a defective CD.
- Special-order items, including custom-made books
- Large print books (catalog number prefixes 4-, A-L, F-, L-, L-C, or J-)
- ATIC Braille Books (catalog number prefix A-B)
- APH-DOTS Braille Books (catalog number prefix Q-)
- Thermoform Braille Books (catalog number prefix T-)

Limited Warranties on APH Products

All APH products are covered by a limited warranty. Certain products are covered by a warranty that expires one year from the date the item is shipped to the end user. All other products are covered by a warranty that expires 30 days from the date the item is shipped to the end user. Warranty does not apply in cases of customer modification, misuse, or abuse of APH products, and does not cover replacement of electronic product accessories, including rechargeable batteries. Items that have a one-year limited warranty include:

General Repair Policy

If you are experiencing trouble with an APH product, please call **1-800-223-1839**. Explain the problem to our friendly Customer Service staff. It is possible that we can help you over the phone. If it is determined that your product does require servicing, please use the following guidelines.

Products Under Warranty

If your product is still under warranty, we will repair or replace the item at no cost to you (subject to some restrictions). Call Customer Service at **1-800-223-1839** to obtain a Return Authorization Number (Return Authorization Number not needed for electronic products—see next paragraph). Please write the Return Authorization Number on the outside of the shipping container, then ship the product to us along with a written description of the problem. APH will refuse a product return if the Return Authorization Number is not written on the outside of the shipping container.

Electronic Products Under Warranty

Unlike all other APH products, electronic products do not require a Return Authorization Number for an under-warranty repair. Note: We can more accurately determine the problem for electronic products if you include all accessories such as batteries, battery clips, power adapters, and headphones; however, please note that extended warranties do not cover replacement of these accessories.

Please call Customer Service about the warranty on the following products: Book Port™, 'K' Sonar, Magni-Cam Electronic Magnifier, Miniguide US, Orion TI-34 Talking Calculator (discontinued), Orion TI-36X Talking Scientific Calculator, PocketViewer, Primer™ Electronic Magnifier, Sherlock Talking Label Identifier. Please do not return these products to APH.

Products Out of Warranty

Set Fee for Each Product

There is a specific, set repair fee for each commonly serviced APH product (please refer to chart on next page). The set fee allows us to more quickly and efficiently service your product.

The fee is to be submitted at the time the product is shipped to APH for repairs. Please be sure to include a written description of the problem. You may pay the fee with a check; money order; Discover®, MasterCard®, or Visa® credit card; purchase order; or Federal Quota order. If you do not include the set repair fee, your equipment will not be repaired until the fee is received.

You will not be charged more than the set fee for a particular item no matter how extensive the necessary repair. Items which are not repairable will be returned to you. For a nonrepairable item, you will receive a refund of the repair fee, with a \$5.00 handling charge deducted.

If you have questions, please call Customer Service, **1-800-223-1839**.

APH Replacement Parts Catalog

Explanatory Notes: Welcome to our APH Parts Catalog. It consists of the most commonly requested replacement items for APH products.

This catalog lists APH products that have available a number of replacement parts. If you don't see a replacement part you are looking for, it may be available through APH's *LouisSM* Database. As new products are added to our catalog, replacement parts will be added to *Louis*. Please use www.aph.org/louis.html to locate all current replacement parts and prices.

Placing Your Order: To expedite your order, please use the stock code number and description listed. All products are pictured in the print edition of this catalog in an effort to help you identify the parts you need. Some items you receive may differ slightly from those pictured. Some items are available only in the collections featured and we cannot divide these into smaller groups. \$15.00 minimum orders will be accepted; however, orders for parts may be included with your regular purchases of other APH products.

We accept **VISA[®]**, **MASTERCARD[®]**, and **DISCOVER[®]** credit cards or you may send a check, money order, pre-approved purchase order, or Federal Quota order. Please do not send cash. Please do not email your credit card number. Contact our Customer Relations Department staff with any questions or suggestions you may have.

Minimum Order: \$15.00. All prices in U.S. dollars. Prices are subject to change without notice.

Note: For reference purposes, the photos in the Replacement Parts Catalog depict the entire content of each kit. Please note that not all items pictured are available for separate purchase as replacement parts.

Federal Quota Funds Could Help Purchase Materials for Your Students!

The federal Act to Promote the Education of the Blind provides funds for adapted educational materials for eligible students who meet the definition of blindness. An annual registration of eligible students determines a per capita amount of money designated for the purchase of educational materials produced by the American Printing House for the Blind (APH). These funds are credited to Federal Quota accounts maintained and administered by APH and its Ex Officio Trustees throughout the country.

Who Is Eligible?

In order for students to be eligible for registration in the Federal Quota Program, they **MUST** meet the following requirements:

- meet the definition of blindness – “central visual acuity of 20/200 or less in the better eye with best correction; a peripheral field so contracted that the widest diameter of such field subtends an angular distance no greater than 20 degrees; or visual performance reduced by a brain injury or dysfunction when visual function meets the definition of blindness as determined by an eye care specialist or neurologist.”
- “be enrolled in a formally organized public or private, nonprofit educational program of less than college level”
- be enrolled with the registering school or agency on the first Monday in January

There is no chronological age limit for eligibility. Adults to be registered must “have a written educational plan and be enrolled in and attend, on a regular basis, an instructional program of at least 20 hours of instruction per week. Social and leisure programs do not qualify as instructional programs.”

Who Are the Ex Officio Trustees?

For each residential school for the blind, state department of education, or agency for the blind that participates in the Federal Quota Program, an Ex Officio Trustee of the American Printing House for the Blind must be designated. Each Ex Officio Trustee is entrusted with the administration of the Federal Quota Program within his or her system.

Want more info?

For more information about the Federal Quota program, visit www.aph.org or call 1-800-223-1839. On our website, you can find contact information for the Ex Officio Trustees in your state. These Trustees can give you the specific information about whether your student may qualify for materials purchased with Federal Quota funds.

**For Timely Delivery:
Order Your 2006 Textbooks Now!**

- Traditional Enlarged Print Textbooks
- The new Large Print Process Textbooks
- Braille Textbooks

The APH Accessible Textbooks Department (ATIC) is now accepting orders for textbooks in braille, traditional enlargement, and the new large print process. As of March 1, all custom textbook orders flow through the Accessible Textbooks Department—one central ordering location for all your textbook needs!

Last summer APH made a commitment to purchase all print textbooks for our customers unless the title is no longer in print or otherwise difficult to obtain, which makes ordering much faster. To place your order simply follow the instructions located here:
www.aph.org/atic/postcard.html

To assure the correct textbook is processed we ask that you also send photocopies of the front and back of the book, the title page, and the back of the title page.
